This is not a book about one thing. It's not a 250-page dissertation on leadership, teams or motivation. Instead, it's an agenda for building organizations that can flourish in a world of diminished hopes, relentless change and ferocious competition. This is not a book about doing better. It's not a manual for people who want to tinker at the margins. Instead, it's an impassioned plea to reinvent management as we know it—to rethink the fundamental assumptions we have about capitalism, organizational life, and the meaning of work. Leaders today confront a world where the

unprecedented is the norm. Wherever one looks, one sees the exceptional and the extraordinary: Business newspapers decrying the state of capitalism. Once-innovative companies struggling to save offenscence. Next gen employees shunning blue chips for social start-ups. Corporate miscreants getting pilloried in the blogosphere. Entry barriers tumbling in what were once oligopolistic strongholds. Hundred year-old business models being rendered irrelevant overnight. Newbie organizations crowdsourcing their most creativework. National governments lurching towards bankruptcy. Investors angrily confronting greedy CEOs and complacent boards. Newly omnipotent customers eagerly wielding their power. Social media dramatically transforming the way human beings connect, learn and collaborate. Obviously, there are lots of things that matter now. But in a world of fractured certainties and battered trust, some things matter more than others. While the challenges facing organizations are limitless; leadership bandwidth isn't. That's why you have to be clear about what really matters now. What are the fundamental, make-or-break issues that will determine whether your organization thrives or dives in the years ahead? Hamel identifies five issues that are paramount: values, innovation, adaptability, passion and ideology. In doing so he presents an essential agenda for leaders everywhere who are eager to... move from defense to offense reverse the tide of commoditization defeat bureaucracy astonish their customers foster extraordinary contribution capture the moral high ground outrun change build a company that's truly fit for the future Concise and to the point, the book will inspire you to rethink your business, your company and how you lead.

### **Becoming Zara**

FUN FACT: "Becoming Zara" is a standalone novella, but if you're following the character of Samantha Bradford as she crosses off the items of her bucket list (the Single Wide Female Series), this is the book that Samantha publishes to complete her bucket list item #18 (Publish a Book). Note: You can download #1 Learn Pole Dancing of that series for free. \*\*\* Hi, I'm Zara...warrior princess. I don't usually tell that last bit to strangers, but I say it in my head all the time. It's one of the many mantras that have helped me to get to where I am today. And believe me when I say that I've come a long way. Besides, if you're a woman and you happen to have ever struggled with issues of self-esteem, we're probably gonna be fast friends anyway, so I won't hold anything (much) back. Oh, and Zara wasn't the name I was born with-but you'll find out more about that in the book. I don't know about you, but my own struggle with my weight has held me back a bit in life. And my self-esteem took a real nose dive after my fiance dumped me-via text, no less. (I know, right? Jerk!...but I don't usually dwell on things in the past, so let's just move right along from that, shall we?) So, I'm still a work-in-progress for sure, but I'm really starting to figure it all out-how to be more of who I'm meant to be every day-including the bumps, the lumps, and my bruised ego along the way. Oh and I love my sisterhood (more about that later) - the women who join me in believing that we

are all capable of being strong, amazing, warrior princesses-just the way we are right now."

#### **Dispelling Common Leadership Myths : a Practical Guide for Leaders that Reminds Us of the Obvious**

"Managerial styles are influenced by habit, familiarity, and workplace culture. It's no wonder that well-intentioned professionals doing their best to be good organizational leaders often repeat unhelpful supervisory practices experienced in their early careers, even if they disliked them at the time. In the DUH! Book of Management and Supervision, the author disagrees with many accepted leadership principles (unabashedly referring to them as myths) and makes new and different approaches easier to imagine. From the very first pages of Scripture, we see the presence of the evil one, working his malice to separate man from God. In

imitation of Christ, we all must contend against the devil, the "serpent" who seeks our destruction. This little booklet will give you the tools to enter into and win that battle . . . with God's grace. Compiled from the writings of Dom Lorenzo Scupoli, St. Robert Bellarmine, and St. Alphonsus Liguori, *25 Ways to Crush the Serpent* also includes prayers and excerpts from the Missale Romanum and other traditional sources. These "25 Ways" will provide fresh insights and encouragement to help you in your own struggle against sin. Most importantly, the wisdom found in these pages will help you to remember that God is all-powerful, that he has already won the battle for you, and that he will never fail you. If we are to be saints, this is a battle we all must fight. Read this book, meditate upon the wisdom found within, and act! Crush the serpent!

## **25 Ways to Make College Pay Off**

### **Advice for Anxious Parents from a Professor Who's Seen it All** *AMACOM Div American Mgmt Assn*

The proposed book appeals to parents who are worried that their \$100,000+ investment in a college education will not lead to a satisfying career path for their children. Two chapters discuss high school with respect to college credit courses in high schools like AP and the application process. The bulk of the book helps parents guide their children to make the right choices while in college. One chapter suggests what should happen after college. The proposed book targets an unfulfilled segment of parent advice books - how to help their children have a college experience that will prepare them for a satisfying career. While

there is no direct competition for this book, there are books that are relevant competition. They can be divided into three types: Books providing general tips about all aspects of college directed at students; Books providing more specific advice on career development directed at students; Books on how parents can cope with their children on all aspects of college.; There are many books written for parents about how to adjust to the empty nest or provide general advice about all of college life such as Carol Barkin's *When Your Kid Goes to College: A Parent's Survival Guide* (Avon Books) and Karen Levin Coburn and Madge Lawrence Treeger's *Letting Go: A Parents' Guide to Understanding the College Years* (Harper Perennial). However, there is no book devoted to how parents can answer the question: how can I make sure my child graduates college ready to start a career or to make a realistic choice about graduate education? Some of the books listed above contain brief discussions on this topic, but none provides a thorough set of tips for success.; None of these books are written by a veteran college professor who has devoted most of his 40+ year teaching career to helping students acquire the skills and perspective to do well in their careers. None of these books have input of successful college students who have used these 20 skills in their college career. This is an insider's book on how to get the most out of college.; I decided to write this book based on my experience with my book, *10 Things Employers Want You to Learn in College* which was written directly to students. Published by 10 Speed Press, it has as, the marketing people at 10 Speed say, legs. It sales could be better if today's college students actually read self-help books and had enough focus and background to plan a college career that would

set them up for a satisfying career path. But they don't. Moreover, whenever I gave a speech to professional educators, members of the audience would purchase an autographed copy, not for their students, but for their kids or nieces and nephew.; Based on that experience, I am writing this book directly to parents. My trip to Barnes and Nobles led to me to two spots in the store. The first was the education section which had about 10 shelves on college topics but most were either about getting into a good college or doing well academically. The second section was called Family and Childcare which mostly contained books related to young children, early teens and children with physical and psychological challenges.; However, one book prominently

displayed in the section was Mel Levine's Ready or Not, Here Life Comes. The tag line said the book shows how today's society makes it hard for kids to grow into productive adults - and what we can do about it. Levine does not deal specifically with how to help children get ready for a satisfying career through college. I wrote to Levine to explore a possible jointly authored book on this topic.; He wrote back I will not be writing a book to parents, but I hope you will do so. I work closely with the head of the Syracuse University bookstore who has bought copies for all her nieces and nephews and has also had me make presentations to a regional conference of the National Association College Bookstores. She has had tremendous success selling my 10 Thing
