Clinical Assessment for Massage Therapy - A practical ...

Massage therapy assessment and evaluation. The process begins with assessment. As previously

noted, other health professionals rely on assessments and evaluation to help plan treatment and improve the health and well-being of their clients (Barry et al., 2012, Braun et al., 2014, Hurkmans et al., 2011, Peter et al., 2011). It is vital that massage therapists follow suit when working with the public.

Process for massage therapy practice and essential assessment

Often called Remedial Massage, or Sports Massage, Clinical Massage uses assessment, analysis and reasoning to determine what is injured or unbalanced. If you have a recent injury, one that just won't get better or keeps reoccurring, or a chronic condition, clinical massage is appropriate. Clinical Massage is a form of deep, soft-tissue massage, which removes muscle tension to release toxins and improve blood and lymph flow.

Clinical massage therapists have a hands-on approach that works directly with the body. It is the combination of detailed client consultation and a tailored programme of treatment that helps to address the pain. Sports injuries, both recent and long term, can be readily treated by clinical massage. Some times after an injury, the pain of the injury remains, even when the tissues havehealed.

What is Clinical Massage? - Wellbeing Naturally

Your job duties as a clinical massage therapist include talking to clients to determine their symptoms, expectations and medical histories. You'll evaluate your clients to find problem areas before performing massage. You'll also provide tips on improving posture, strength, flexibility and relaxation.

What is a Clinical Massage Therapist?

As a Clinical Massage Therapist in both the US and Glasgow, my career has exposed me to a wide range of client’s and their ailments. Most common complaints can present similar patterns and in turn particular treatment protocols can provide successful results but it is essential to always question and evaluate.
