Field Notes On Science And Nature

Fieldnotes refer to qualitative notes recorded by scientists or researchers in the course of field research, during or after their observation of a specific phenomenon they are studying. The notes are intended to be read as evidence that gives meaning and aids in the understanding of the phenomenon. Fieldnotes allow the researcher to access the subject and record what they observe in an unobtrusive manner. One major disadvantage of taking fieldnotes is that they are recorded by an observer and a
