The Key to Newton's Dynamics - Read online

Newton's Second Law of Motion defines the relationship between acceleration, force, and mass. Newton's Third Law of Motion states that any time a force acts from one object to another, there is an equal force acting back on the original object. If you pull on a rope, therefore, the rope is pulling back on you as well.

A Practical Intro to Newton's 3 Laws of Motion

According to Newton's First Law of motion, an object remains in the same state of motion unless a resultant force acts on it. If the resultant force on an object is zero, this means: a stationary ...
