Private Rights In Public Resources

Privatizing public resources by creating stronger property rights, including so-called rights to pollute, is an increasingly popular environmental policy option.

While advocates of this type of market-based environmental policy tend to focus on its efficiency and ecological implications, such policies also raise important considerations of equity and distributive justice.

People who have access to neither

private resource nor public resources tend to be at a distinct disadvantage in terms of significant quality of life issues. Without public energy for things like clinics, the transport of food and goods, the importation of medicines, etc... life can be highly functional, but often is very vulnerable to disaster, either personal (disease, injury, loss of land or income), or public.
