An Introduction To Radio Astronomy

Written by two prominent figures in radio astronomy, this well-established, graduate-level textbook is a thorough introduction to radio telescopes and techniques. It is an invaluable overview for students and researchers turning to radio astronomy for the first time. The first half of the book describes how radio telescopes work - from basic antennas and single aperture dishes through to full aperture-synthesis arrays.

**An Introduction to Radio Astronomy
eBook: Burke, Bernard F ...**

Radio astronomy is the study of radio radiation from celestial sources. The radio range of frequencies or wavelengths is loosely defined by three factors: atmospheric transparency, current technology, and fundamental limitations imposed by quantum noise. Together they yield a boundary between radio and far-infrared astronomy at

frequency 1 THz (1 THz 10^{12} Hz) or wavelength = c / ν 0.3 mm, where $c = 3 \times 10^{10}$ cm s⁻¹ is the vacuum speed of light.

Introduction to Radio Astronomy

Written by two prominent figures in radio astronomy, this well-established, graduate-level textbook is a thorough introduction to radio telescopes and techniques. The first half of the book describes how radio telescopes work - from basic antennas and single aperture dishes through to full aperture-synthesis arrays.

An Introduction to Radio Astronomy (3rd ed.)

Introduction to Radio Astronomy What is

Radio? Radio is part of the Electromagnetic Spectrum (EM) along with Light. The Electromagnetic Spectrum Whenever an electric charge changes speed or direction it gives off an electromagnetic (EM) wave. How fast the wave 'wiggles' determines what kind of EM radiation is created.

Introduction to Radio Astronomy

A thorough introduction to radio astronomy and its contribution to our understanding of the universe, perfect for beginners. Fully revised and updated, the fourth edition covers the basic physics and observational techniques, including interferometric and digital techniques, single-dish telescopes and aperture synthesis arrays.
