RUBRIC

A rubric is a scoring tool for subjective assessments. It is a set of criteria and standards linked to learning objectives that is used to assess a student's performance on papers, projects, essays, and other assignments. Rubrics allow for standardised evaluation according to specified criteria, making grading simpler and more transparent.

Characteristics to note

in the rubric: Language is descriptive, not evaluative. Labels for degrees of success are descriptive (“Expert” “Proficient”, etc.); by avoiding the use of letters representing grades or numbers representing points, there is no implied contract that qualities of the paper will “add up” to a specified score or grade or that all dimensions are of equal grading value.
