The drive wheel transmission is designed and built by Amada to provide high efficiency speed reduction, which requires no external cooling, to deliver more power to the large diameter drive shaft. This shaft ensures that this developed torque is transferred to the blade with no strobing, enabling the machine to efficiently cut high alloys as well as free machining materials.

Amada HA-250 - Anyone have Manuals??? I picked up an Amada HA-250 auto saw the other day, 1991 vintage - a friend is selling off a shop for a widow, and I thought I'd lend a hand and pass along a few bucks. Anyway, out of all of the old machinery, I think this was the only one that did not have any documentation. There are some old Bendix controlled machines with the documents, but not this ...
