reading!

Hitler *Harper Collins*

The classic biography of Hitler that remains, years after its publication, one of the most authoritative and readable accounts of his life. Here in an abridged edition.

Hitler

Life in the Third Reich *Oxford University Press, USA*

Essays discuss political violence, village life, public opinion of Hitler, Nazi policy against the Jews, social outcasts, and the experience of youngsters growing up in Nazi Germany

Hitler *Prometheus Books*

This fascinating and richly detailed new biography of Hitler reinterprets the known facts about the Nazi Fuehrer to construct a convincing, realistic portrait of the man. In place of the hollow shell others have made into an icon of evil, the author sees a complex, nuanced personality. Without in any way glorifying its subject, this unique revision of the historical Hitler brings us closer to understanding a pivotal personality of the twentieth century.

Hitler

Hitler and Stalin *Vintage*

Forty years after his *Hitler: A Study in Tyranny* set a standard for scholarship of the Nazi era, Lord Alan Bullock gives readers a breathtakingly accomplished dual biography that places Adolf Hitler's origins, personality, career, and legacy alongside those of Joseph Stalin--his implacable antagonist and moral mirror image.

Hitler *Basic Books*

From a prize-winning historian, the definitive biography of Adolph Hitler Hitler offers a deeply learned and radically revisionist biography, arguing that the dictator's main strategic enemy, from the start of his political career in the 1920s, was not communism or the Soviet Union, but capitalism and the United States. Whereas most historians have argued that Hitler underestimated the American threat, Simms shows that Hitler embarked on a preemptive war with the United States precisely because he considered it such a potent adversary. The war against the Jews was driven both by his anxiety about combatting the supposed forces of international plutocracy and by a broader desire to maintain the domestic cohesion he thought necessary for survival on the international scene. A powerfully argued and utterly definitive account of a murderous tyrant we thought we understood, Hitler is essential reading for anyone seeking to understand the origins and outcomes of the Second World War.

The Perfect Nazi *Penguin*

What if you found out that your grandfather had been a Nazi SS officer? This is the confession that Martin Davidson received from his mother upon the death of demanding, magnetic grandfather Bruno Langbehn. The Perfect Nazi is Davidson's exploration of his family's darkest secret. As Davidson dove into his research, drawing on an astonishing cache of personal documents as well as eyewitness accounts of this historical period, he learned that Bruno's story moved lock-step in time with the rise and fall of the Nazi party: from his upbringing in a fiercely military environment amid the aftermath of World War I, to his joining the Nazi party in 1926 at the age of nineteen, more than six years before Hitler

came to power, to his postwar involvement with the Werewolves, the gang of SS stalwarts who vowed to keep on after the defeat of Nazism. Davidson realized that his grandfather was in many ways the "perfect Nazi," his individual experiences emblematic of the generation of Germans who would plunge the world into such darkness. But he also realized that every fact he uncovered was a terrible truth he himself would have to come to terms with...

Hitler : a study in tyranny

The Weimar Republic 1919-1933 *Routledge*

This book represents a much-needed reappraisal of Germany between the wars, examining the political, social and economic aims of the new republic, their failure and how they led to Nazism and eventually the Second World War. The author includes: * an examination of the legacy of the First World War and the Treaty of Versailles * discussion of the early years of crisis culminating in the Ruhr Invasion and the Dawes Settlement * assessment of the leadership of Stresemann and Brüning * exploration of the circumstances leading to the rise of Hitler * an outline of the historiography of the Weimar Republic.

Explaining Hitler *Harper Collins*

Investigates the heated debate among historians, psychologists, philosophers, and theologians attempting to understand the life and nature of Adolf Hitler

Hitler

Hitler *Univ of California Press*

Seeks to pinpoint the source of Hitler's appeal to German society during the nineteen thirties through an examination of his speeches, writings and conversations

On Tyranny *Crown*

#1 NEW YORK TIMES BESTSELLER • A "bracing" (Vox) guide for surviving and resisting America's turn towards authoritarianism, from "a rising public intellectual unafraid to make bold connections between past and present" (The New York Times) "Timothy Snyder reasons with unparalleled clarity, throwing the past and future into sharp relief. He has written the rare kind of book that can be read in one sitting but will keep you coming back to help regain your bearings."—Masha Gessen The Founding Fathers tried to protect us from the threat they knew, the tyranny that overcame ancient democracy. Today, our political order faces new threats, not unlike the totalitarianism of the twentieth century. We are no wiser than the Europeans who saw democracy yield to fascism, Nazism, or communism. Our one advantage is that we might learn from their experience. On Tyranny is a call to arms and a guide to resistance, with invaluable ideas for how we can preserve our freedoms in the uncertain years to come.

Hitler. A Study in Tyranny. (Fourth Impression, with Revisions to Chapter I.).

Hitler

Hitler. A Study in Tyranny ... Completely Revised Edition. [With Plates, Including Portraits, and with Maps.]

Hitler *Turtleback Books*

Carefully examines Hitler's career and ultimate defeat in light of the social, economic, and psychological conditions in which he prospered

Hitler and the Power of Aesthetics

Available again, the classic, unprecedented look at how the strategies and ideals of the Third Reich were informed by Adolf Hitler's artistic aspirations. "Grimly fascinating . . . A book that will rightly find its place among the central studies of Nazism. . . . Invaluable." --The New York Times

Mein Kampf *Diamond Pocket Books Pvt Ltd*

'MEIN KAMPF' is the autobiography of Adolf Hitler gives detailed insight into the mission and vision of Adolf Hitler that shook the world. This book is the merger of two volumes. The first volume of MEIN KAMPF' was written while the author was imprisoned in a Bavarian fortress. The book deals with events which brought the author into this blight. It was the hour of Germany's deepest humiliation, when Napoleon has dismembered the old German Empire and French soldiers occupied almost the whole of Germany. The books narrates how Hitler was arrested with several of his comrades and imprisoned in the fortress of Landsberg on the river Lech. During this period only the author wrote the first volume of MEIN KAMPF. The Second volume of MEIN KAMPF was written after release of Hitler from prison and it was published after the French had left the Ruhr, the tramp of the invading armies still echoed in German ears and the terrible ravages had plunged the country into a state of social and economic Chaos. The beauty of the book is, MEIN KAMPF is an historical document which bears the imprint of its own time. Moreover, Hitler has declared that his acts and 'public statements' constitute a partial revision of his book and are to be taken as such. Also, the author has translated Hitler's ideal, the Volkischer Staat, as the People's State. The author has tried his best making German Vocabulary easy to understand. You will never be satisfied until go through the whole book. A must read book, which is one of the most widely circulated and read books worldwide.

Hitler and the Collapse of Weimar Germany *Bloomsbury USA Academic*

From the decline of the Weimar government through the ascension of the Third Reich in January 1933, a preeminent German historian takes a compelling look at the period after World War I and just prior to Hitler's Chancellorship, drawing on journals, newspaper accounts and Hitler's public statements. Broszat places in rare perspective Hitler's early activities and the strategic process by which the Nazi Party took control.

Churchill, Hitler, and "The Unnecessary War" *Crown Forum*

Were World Wars I and II inevitable? Were they necessary wars? Or were they products of calamitous failures of judgment? In this monumental and provocative history, Patrick Buchanan makes the case that, if not for the blunders of British statesmen—Winston Churchill first among them—the horrors of two world wars and the Holocaust might have been avoided and the British Empire might never have collapsed into ruins. Half a century of murderous oppression of scores of millions under the iron boot of Communist tyranny might never have happened, and Europe's central role in world affairs might have been sustained for many generations. Among the British and Churchillian errors were: • The secret decision of a tiny cabal in the inner Cabinet in 1906 to take Britain straight to war against Germany, should she invade France • The vengeful Treaty of Versailles that mutilated Germany, leaving her bitter, betrayed, and receptive to the appeal of Adolf Hitler • Britain's capitulation, at Churchill's urging, to American pressure to sever the Anglo-Japanese alliance, insulting and isolating Japan, pushing her onto the path of militarism and conquest • The greatest mistake in British history:

the unsolicited war guarantee to Poland of March 1939, ensuring the Second World War. Certain to create controversy and spirited argument, Churchill, Hitler, and “the Unnecessary War” is a grand and bold insight into the historic failures of judgment that ended centuries of European rule and guaranteed a future no one who lived in that vanished world could ever have envisioned.

From Darwin to Hitler *Springer*

In this work, Richard Weikart explains the revolutionary impact Darwinism had on ethics and morality. He demonstrates that many leading Darwinian biologists and social thinkers in Germany believed that Darwinism overturned traditional Judeo-Christian and Enlightenment ethics, especially the view that human life is sacred. Many of these thinkers supported moral relativism, yet simultaneously exalted evolutionary ‘fitness’ (especially intelligence and health) to the highest arbiter of morality. Darwinism played a key role in the rise not only of eugenics, but also euthanasia, infanticide, abortion and racial extermination. This was especially important in Germany, since Hitler built his view of ethics on Darwinian principles, not on nihilism.

A Psychological Analysis of Adolf Hitler *Createspace Independent Pub*

In 1943 William Donovan the director of the Office of Strategic Services (the forerunner to the CIA) approached Harvard psychologist Walter Langer and asked him to construct a psychological profile of Adolf Hitler. Despite his reservations regarding the reliability of the data upon which his analysis would be based, Langer set about this unprecedented task by putting together a team of psychologists and researchers. Langer and his research team had just five months to produce their findings, in which time they interviewed key informants who knew Hitler personally and drew upon over 1000 pages of background research from a document known as The Hitler Source Book. In order to try and understand Hitler as a person and the motivations underlying his actions, Langer presents his psychological profile within five specific sections 1. Hitler as he believes himself to be. 2. Hitler as the German people know him. 3. Hitler as his associates know him. 4. Hitler as he knows himself. 5. Psychological analysis and reconstruction. Freudianism at its Height In constructing a psychological analysis of Hitler, Langer drew heavily upon the ideas of Sigmund Freud, most notably the developmental influence of early childhood experiences. As such the report provides the reader with a fascinating window into the mechanics of Freudian analysis. Among the issues discussed within this paradigm are: Hitler's character as influenced by his father. Hitler's mother and her influence. Hitler's attitude towards love, women and marriage. Hitler's early conflicts expressed in symbolic form. The Messiah Complex. Desire for immortality. Hitler's Sexual development. A Classic in The History of Psychology Langer's report on Adolf Hitler not only showcased the dominant discourse of psychological analysis at the time, but it also served as the catalyst for the development of political profiling as a discipline. Psychology Gets Political Without doubt the greatest legacy of Langer's report was the influence it had on the field of political profiling. Dr Jerrold Post cites Langer's analysis of Hitler as the inspiration for the profiling unit he established at the CIA in the 1970s; which would subsequently go on to profile every important world leader up to and including Saddam Hussein. In discussing Langer's psychological profile of Hitler during an interview with the BBC, Post stated: "We must understand the leaders we are contending with - you can't deter optimally a leader you don't understand - and to relegate be it a Hitler or a Joseph Stalin or a Saddam Hussein to a crazy evil madman really

degrades our capacity to deal with them optimally because we're not thinking about what pushes them, what makes them tick." While the value of political profiling remains open to question, the seminal importance of Langer's psychological study of Hitler in influencing the discipline is not. A Psychological Analysis of Adolf Hitler has been produced as part of an initiative by the website All About Psychology to make important psychology publications widely available. www.all-about-psychology.com

Understanding Genocide *Oxford University Press, USA*

When and why do groups target each other for extermination? How do seemingly normal people become participants in genocide? In these essays, social psychologists use the principles derived from contemporary research in their field to try to shed light on the behaviour of perpetrators of genocide.

The Life and Death of Adolf Hitler *Houghton Mifflin Harcourt*

Traces Hitler's life from his childhood in Austria to his final days in Berlin, exploring how his promises of prosperity and power along with anti-Semitic rhetoric allowed him to lead the nation of Germany into World War II.

Bloodlands *Basic Books*

From the author of the international bestseller *On Tyranny*, the definitive history of Hitler's and Stalin's politics of mass killing, explaining why Ukraine has been at the center of Western history for the last century. Americans call the Second World War “the Good War.” But before it even began, America's ally Stalin had killed millions of his own citizens—and kept killing them during and after the war. Before Hitler was defeated, he had murdered six million Jews and nearly as many other Europeans. At war's end, German and Soviet killing sites fell behind the Iron Curtain, leaving the history of mass killing in darkness. Assiduously researched, deeply humane, and utterly definitive, *Bloodlands* is a new kind of European history, presenting the mass murders committed by the Nazi and Stalinist regimes as two aspects of a single story. With a new afterword addressing the relevance of these events to the contemporary decline of democracy, *Bloodlands* is required reading for anyone seeking to understand the central tragedy of modern history and its meaning today.

Hitler

The Psychopathic God *Da Capo Press*

The Psychopathic God is the definitive psychological portrait of Adolph Hitler. By documenting accounts of his behavior, beliefs, tastes, fears, and compulsions, Robert Waite sheds new light on this complex figure. But Waite's ultimate aim is to explain how Hitler's psychopathology changed German—and world—history. With *The Psychopathic God* we can begin to understand Hitler as never before.

In the Nazi Era

Discusses governments that abuse human rights and suggests what one can do to voice opposition to these oppressive regimes.

Hitler

The story of how Adolf Hitler created his 'Führer dictatorship' -- consistently and ruthlessly destroying everything that stood in his way, and with with terrifying and almost limitless power over the German people.

Theologians Under Hitler *Yale University Press*

What led so many German Protestant theologians to welcome the Nazi regime and its policies of racism and anti-Semitism? In this

provocative book, Robert P. Ericksen examines the work and attitudes of three distinguished, scholarly, and influential theologians who greeted the rise of Hitler with enthusiasm and support. In so doing, he shows how National Socialism could appeal to well-meaning and intelligent people in Germany and why the German university and church were so silent about the excesses and evil that confronted them. "This book is stimulating and thought-provoking....The issues it raises range well beyond the confines of the case-studies of the three theologians examined and have relevance outside the particular context of Hitler's Germany....That the book compels the reader to rethink some important questions about the susceptibility of intelligent human beings to as distasteful a phenomenon as fascism is an important achievement."--Ian Kershaw, *History Today* "Ericksen's study...throws light on the kinds of perversion to which Christian beliefs and attitudes are easily susceptible, and is therefore timely and useful." --Gordon D. Kaufman, *Los Angeles Times* "An understanding and carefully documented study."--Ernst C. Helmreich, *American Historical Review* "This dark book poses a number of social, economic and cultural questions that one has to answer before condemning Kittel, Althaus and Hirsch."--William Griffin, *Publishers Weekly* "A highly competent, well written book."--Tim Bradshaw, *Churchman*

A Military Leadership Analysis Of Adolf Hitler *Pickle Partners Publishing*

"Before the war, and still more during the conquest of the West, Hitler came to appear a gigantic figure, combining the strategy of a Napoleon with the cunning of a Machiavelli and the fanatical fervour of a Mohomet. After his first check in Russia, his figure began to shrink, and towards the end he was regarded as a blundering amateur in the military field, whose crazy orders and crass ignorance had been the Allies' greatest asset. All the disasters of the German Army were attributed to Hitler; all its successes were credited to the German General Staff." - B. H. Liddell Hart Liddell Hart goes on to say that while this description of Adolf Hitler may not be entirely true, there is certainly some truth to it. While conducting the research for this project, it became increasingly apparent that in the late 1930s Hitler was indeed a successful military leader. The impetus behind this success was partly due to Hitler's political decision making process which, in effect, laid the foundation for World War II. However, as his success continued to mount, he became more and more involved in the intricacies of battlefield tactics and strategy. This is where Hitler's and Germany's eventual downfall for the conquest of Europe began. Upon examining Hitler's strengths, weaknesses, and decision making processes as a military leader one can begin to fully appreciate how the infamous "stop" order at Dunkirk and his "no retreat" policy at Stalingrad are often referred to as Hitler's greatest blunders of World War II.

The Past is Myself & The Road Ahead Omnibus *Random House*

The Past is Myself Christabel Bielenberg, a niece of Lord Northcliffe, married a German lawyer in 1934. She lived through the war in Germany, as a German citizen under the horrors of Nazi rule and Allied bombings. The Past is Myself is her story of that experience - and an unforgettable portrait of an evil time. Published in the USA as *When I Was a German*. The Road Ahead Following the extraordinary success of her wartime memoir, *The Past is Myself*, Christabel Bielenberg received thousands of letters from readers begging her to describe what happened next. In *The Road Ahead* she continues her story with the outbreak of peace - a time of struggle for reconciliation with, and the rebuilding of, a

defeated nation. She also tells of life in her newly adopted country, Ireland, her involvement with the Peace Women of Northern Ireland, and with characteristic modesty and gratitude, looks back on a rich, full life.

The Black Book of Communism *Harvard University Press*

Collects and analyzes seventy years of communist crimes that offer details on Kim Sung's Korea, Vietnam under "Uncle Ho," and Cuba under Castro.

From Caligari to Hitler *Princeton University Press*

An essential work of the cinematic history of the Weimar Republic by a leading figure of film criticism First published in 1947, *From Caligari to Hitler* remains an undisputed landmark study of the rich cinematic history of the Weimar Republic. Prominent film critic Siegfried Kracauer examines German society from 1921 to 1933, in light of such movies as *The Cabinet of Dr. Caligari*, *M*, *Metropolis*, and *The Blue Angel*. He explores the connections among film aesthetics, the prevailing psychological state of Germans in the Weimar era, and the evolving social and political reality of the time. Kracauer makes a startling (and still controversial) claim: films as popular art provide insight into the unconscious motivations and fantasies of a nation. With a critical introduction by Leonardo Quaresima which provides context for Kracauer's scholarship and his contributions to film studies, this Princeton Classics edition makes an influential work available to new generations of cinema enthusiasts.

Hitler

Theories of Tyranny *Penn State Press*

The Life and Death of Adolf Hitler *ipicturebooks*

A New York Times Bestseller In *The Life And Death of Adolf Hitler*, biographer Robert Payne unravels the tangled threads of Hitler's public and private life and looks behind the caricature with the Charlie Chaplin mustache and the unruly shock of hair to reveal a Hitler possessed of immense personal charm that impressed both men and women and brought followers and contributions to the burgeoning Nazi Party. Although he misread his strength and organized an ill-fated putsch, Hitler spent his months in prison writing *Mein Kampf*, which increased his following. Once in undisputed command of the Party, Hitler renounced the chastity of his youth and began a sordid affair with his niece, whose suicide prompted him to reject forever all conventional morality. He promised anything to prospective supporters, then cold-bloodedly murdered them before they could claim a share of the power he reserved for himself. Once he became Chancellor, Hitler step by step bent the powers of the state to his own purposes to satisfy his private fantasies, rearming Germany, slaughtering his real or imaginary enemies, blackmailing one by one the leaders of Europe, and plunging the world into the holocaust of World War II. *THE LIFE AND DEATH OF ADOLF HITLER* is the story of not so much a man corrupted by power as a corrupt man who achieved absolute power and used it to an unprecedented degree, knowing at every moment exactly what he was doing and calculating his enemies' weaknesses to a hair's breadth. It is the story of a living man. Robert Payne (1911-1983) was born in Cornwall, U.K. His father was English, his mother French. He was educated at St. Paul's School in London and at the universities of Liverpool, Capetown in South Africa, Munich and The Sorbonne. During his lifetime he had over a hundred books published on a wide range of subjects, the widest range of any known author. He was known chiefly for his biographies and history books, among them Hitler, Lenin, Stalin, Gandhi, Leonardo, Chaplin, the

Christian Centuries, The World of Art. He also wrote novels and poetry. Librarians loved him; critics raved about him. Orville Prescott of The New York Times referred to him as "a literary phenomenon of astounding versatility and industry."

Hitler's Henchmen *The History Press*

Josef Goebbels, Hermann Goring, Heinrich Himmler, Rudolph Hess, Albert Speer and Karl Donitz. These were the men who

smoothed Adolf Hitler's path to power and became the perpetrators of a reign of terror unparalleled in history. They were the supporters and executives at Hitler's regime, carrying out his orders with deadly efficiency. This radical new assessment of power under the swastika reveals many unknown facts and gives a unique but disturbing glimpse behind the scenes of the Nazi state.
