LG Multi Split Systems - Multi Split System - Categories

A multi split-air conditioner is a type of split air conditioner. While a split air conditioner cools only one room at a time, a multi-split air conditioner lets you cool multiple rooms at a time. This is a result of its construction: a split air conditioner consists of one compressor and one air outlet, while a multi-split air conditioner has multiple (up to five) air outlets, all connected to one compressor.

What is a Multi Split System Air Conditioner?

Heterochromia is a variation in coloration.The term is most often used to describe color differences of the iris, but can also be applied to color variation of hair or skin.Heterochromia is determined by the production, delivery, and concentration of melanin (a pigment).It may be inherited, or caused by genetic mosaicism, chimerism, disease, or injury.
