Computer Systems: A Programmer's Perspective, 3/E (CS:APP3e) Overview.

This book (CS:APP3e) is the third edition of a book that stems from the introductory computer systems course we developed at Carnegie Mellon University, starting in the Fall of 1998, called "Introduction to Computer Systems" (ICS). The presentation is based on the following principles, which aim to help the students become better programmers and to help prepare them for upper-level systems courses:

CS:APP3e, Bryant and O'Hallaron

Some even started programming as kids.
