Survey Methodology describes the basic principles of survey design discovered in methodological research over recent years and offers guidance for making successful decisions in the design and execution of high quality surveys.

**Survey methodology
/ Robert M. Groves
... [et al ...**

Survey methodology as a scientific field seeks to identify principles about the sample design, data collection instruments, statistical adjustment of data, and data processing, and final data analysis that can create

systematic and random survey errors. Survey errors are sometimes analyzed in connection with survey cost.
