Smart Thesaurus helps you choose the right word * QUICKfind looks up words for you while you are working or reading on screen * UNIQUE! SUPERwrite gives on screen help with grammar, spelling and collocation when you are writing * Hundreds of interactive exercises

Using Portuguese *Cambridge University Press*

This is a guide to Portuguese usage for students who have already acquired the basics of the language and wish to extend their knowledge. It covers both the Brazilian and the European varieties of the language, and differentiates clearly between them. It gives detailed explanations of grammatical structures and semantic fields and, unlike conventional grammars, it gives special attention to those areas of vocabulary and grammar which cause most difficulty to English-speakers. It also contains a special chapter for students who are familiar with Spanish, highlighting key similarities and differences between the two languages.

Careful consideration is given throughout to questions of style, register, and politeness which are essential to achieving an appropriate level of formality or informality in writing and speech. Clear, readable and easy to consult via its two indexes, this is an essential reference for learners seeking access to the finer nuances of the Portuguese language.

English for Research: Usage, Style, and Grammar *Springer Science & Business Media*

This guide is based on a study of referees' reports and letters from journal editors on the reasons why papers written by non-native researchers are rejected due to problems with English usage, style and grammar. It draws on English-related errors from around 5000 papers written by non-native authors, 500 abstracts by PhD students, and over 1000 hours of teaching researchers how to write and present research papers. English for Research: Usage, Style, and Grammar covers those areas of English usage that typically cause researchers difficulty: articles (a/an, the), uncountable nouns, tenses (e.g., simple present, simple past, present perfect), modal verbs, active vs. passive form, relative clauses, infinitive vs. -ing form, the genitive, noun strings, link words (e.g., moreover, in addition), quantifiers (e.g., each vs. every), word order, prepositions, acronyms, abbreviations, numbers and measurements, punctuation, and spelling. Due to its focus on the specific errors that repeatedly appear in papers written by non-native authors, this manual is an ideal study guide for use in universities and research institutes. The book is cross-referenced with the following titles: • English for Academic Research:

Grammar Exercises • English for Academic Research: Vocabulary Exercises • English for Academic Research: Writing Exercises • English for Writing Research Papers Adrian Wallwork is the author of more than 30 English Language Teaching (ELT) and English for Academic Purposes (EAP) textbooks. He has trained several thousand PhD students and researchers from 40 countries to prepare and give presentations. Since 1984 he has been revising research manuscripts through his own proofreading and editing service.

AlphaBest *Kids Can Press Ltd*

An introduction to adjectives features examples arranged alphabetically and complemented by an explanation of the principles for forming comparatives and superlatives.

Great Grammar Lessons that Work *Scholastic Inc.*

A hands-on discovery mode of teaching English grammar using a variety of techniques.

Comparatives and Superlatives

Provides activities and blackline masters within the familiar zoo theme to teach the concepts and use of comparative and superlative forms. For ages 3-7.

English Adjective Comparison *John Benjamins Publishing*

The present work contributes to a better understanding of the English system of degree by means of a study of a number of aspects in the evolution of adjective comparison that have so far either been considered controversial or not been counted for at all. As will be shown, the diachronic aspects analysed will also have synchronic implications.

Furthermore, unlike previous synchronic as well as diachronic accounts of adjective comparison, this monograph does not concentrate on the 'standard' comparative strategies (i.e. inflectional and periphrastic forms) only, but also deals with double periphrastic comparatives, thus providing an analysis of the whole range of comparative structures in English.

A Reference Grammar of Spanish *Cambridge University Press*

A Reference Grammar of Spanish is a comprehensive handbook on the structure of the Spanish language. Keeping technical terminology to a minimum, it provides a detailed yet clear point of reference on all the intricacies of Spanish grammar, covering word order, parts of speech, verb use, syntax, gender, number, alphabet, and pronunciation. Accompanied by a wealth of carefully chosen examples, it looks at Spanish in Iberia, the USA, Mexico, and Argentina, and demonstrates the differences between these varieties. It is designed specifically with English-speaking learners in mind, and contains useful tools such as a glossary of terms, an index, and a detailed examination of different registers of the language. Clearly structured and systematically organised, this volume is set to become the standard guide to the grammar of contemporary Spanish, and will be an invaluable resource for teachers and students, as well as a practical supplement to textbooks and classroom study.

Mysteries of English Grammar *Routledge*

Despite a history of hundreds of years of research analysing aspects of English grammar, there are still open problems

which continue to baffle language researchers today. Such 'grammar mysteries' arise for a number of reasons: because the language is changing; because different speakers of the language adhere to distinct norms and thus introduce and maintain variation in the system; because there are differences between the grammar of spoken and written English. This book illuminates some of the complexities of the subject, the areas where new discoveries await and why it matters. Through a series of accessible and engaging case studies on various aspects of grammar, from multiple negation to possession, the authors present grammar as an intellectual challenge. This book brings out into the open questions about language usage to which we still do not have good answers in a bid to make variation overt and to revel in the mystery of the English language. Both aimed at the interested general reader and the beginning student of English language and linguistics, this is a fresh take on grammar.

A School Grammar of Attic Greek

Practical English Usage

An English usage reference guide addresses problem points in the language as encountered by learners and their teachers, including information on grammar, vocabulary, idiom, style, pronunciation, and spelling.

The Oxford Reference Guide to English Morphology *Oxford University Press*

This volume presents a data-rich description of English inflection and word-formation. Based on large corpora including the Corpus of Contemporary

American English and the British national Corpus, it is the first comprehensive treatment of contemporary English morphology that includes both inflection and word-formation. It covers not only well-studied topics such as compounding, conversion, and the inflection and derivation of nouns and verbs, but also areas that have received less scholarly attention, such as the formation of adjectives, locatives, negatives, evaluatives, neoclassical compounds and blends, among many other topics. Equal weight is given to form and meaning. The volume also contains sections devoted to phonological and orthographic aspects of morphology and to combinatorial and paradigmatic properties of English morphology. It ends with a series of chapters that assess the implications of English morphology for morphological theory, discussing topics such as stratification, blocking and competition, the analysis of conversion, and the relationship between inflection and derivation. Winner of the 2015 Bloomfield Book Award and written by three outstanding scholars, this outstanding book will interest all scholars and students of English and of linguistic morphology more generally.

Hairy, Scary, Ordinary *Lerner Digital*
TM

Audisee® eBooks with Audio combine professional narration and text highlighting for an engaging read aloud experience! Adjectives are words like hairy, scary, cool, and ordinary. Simple, rhyming text and colorful cartoon cats help children expand their vocabularies and gain an appreciation for the rhythm of language in this lighthearted book of rhyming verse. Adjectives like frilly, silly, polka-dotted, fizzy, and spunky are

printed in color, and all the words will tickle you pink!

Universals in Comparative Morphology *MIT Press*

An argument for, and account of linguistic universals in the morphology of comparison, combining empirical breadth and theoretical rigor. This groundbreaking study of the morphology of comparison yields a surprising result: that even in suppletion (the wholesale replacement of one stem by a phonologically unrelated stem, as in good-better-best) there emerge strikingly robust patterns, virtually exceptionless generalizations across languages. Jonathan David Bobaljik describes the systematicity in suppletion, and argues that at least five generalizations are solid contenders for the status of linguistic universals. The major topics discussed include suppletion, comparative and superlative formation, deadjectival verbs, and lexical decomposition. Bobaljik's primary focus is on morphological theory, but his argument also aims to integrate evidence from a variety of subfields into a coherent whole. In the course of his analysis, Bobaljik argues that the assumptions needed bear on choices among theoretical frameworks and that the framework of Distributed Morphology has the right architecture to support the account. In addition to the theoretical implications of the generalizations, Bobaljik suggests that the striking patterns of regularity in what otherwise appears to be the most irregular of linguistic domains provide compelling evidence for Universal Grammar. The book strikes a unique balance between empirical breadth and theoretical detail. The phenomenon that is the main focus of the argument, suppletion in adjectival

gradation, is rare enough that Bobaljik is able to present an essentially comprehensive description of the facts; at the same time, it is common enough to offer sufficient variation to explore the question of universals over a significant dataset of more than three hundred languages.

Gateway to Arabic

Aimed at the beginner who has no prior knowledge of Arabic, this work begins with the first letter of the alphabet, and gradually builds up the learner's skills to a level where he or she would be able to read a passage of vocalised Arabic text. It also includes numerous copying exercises that enable students to develop a clear handwritten style.

Modification *Cambridge University Press*

An accessible guide to the linguistic semantics of adjectives, adverbs, gradability, vagueness, comparatives, and modification more generally.

Easy Learning French Verbs (Collins Easy Learning French) *HarperCollins UK*

Collins Easy Learning French Verbs offers beginners a clear and easy-to-understand guide to French verbs.

Shape Up Your Language/Part III *Communication Skill Builders*

German for Everyone Junior 5 Words a Day *Penguin*

PLEASE NOTE - this is a replica of the print book and you will need a pen and paper to complete the exercises. Your first 1,000 German words - five words a day. Over the course of a year, German for Everyone Junior: Five Words a Day teaches new vocabulary to children who

are starting to learn German. Presenting 20 new words between Monday and Thursday, the final day of each week's teaching allows children to practice the vocabulary they have just learned. A mix of nouns and verbs are taught through beautifully illustrated scenes, with each new word clearly labeled. Five Words a Day first encourages children to copy out the words before covering them with the flaps on the jacket and testing their new knowledge. Accompanying audio means that children are also able to practice their German pronunciation as many times as they want. With over 1,000 German words, Five Words a Day is a colorful, clear, and comprehensive workbook that will lay the foundations for your child's journey in learning and understanding German, at school or at home.

English Grammar in Use with Answers, Thai Edition *Cambridge University Press*

This is an adaptation of Essential Grammar in Use for Thai elementary learners.

Grammar Practice Activities *Cambridge University Press*

A guide to combining grammar teaching with a broadly communicative methodology.

All about Grammar *R.I.C. Publications*
Grammar is easy if you understand why it changes when you use it for different purposes and how it changes in different situations. Here is the book that has everything you need to know about grammar.

The Practice of English Language Teaching

A Greek Grammar for Schools and Colleges

A Student's Introduction to English Grammar *Cambridge University Press*

This groundbreaking undergraduate textbook on modern Standard English grammar is the first to be based on the revolutionary advances of the authors' previous work, *The Cambridge Grammar of the English Language* (2002). The analyses defended there are outlined here more briefly, in an engagingly accessible and informal style. Errors of the older tradition of English grammar are noted and corrected, and the excesses of prescriptive usage manuals are firmly rebutted in specially highlighted notes that explain what older authorities have called 'incorrect' and show why those authorities are mistaken. This book is intended for students in colleges or universities who have little or no previous background in grammar, and presupposes no linguistics. It contains exercises, and will provide a basis for introductions to grammar and courses on the structure of English not only in linguistics departments but also in English language and literature departments and schools of education.

Writing First with Readings *Macmillan*

Writing First teaches the basics of writing and grammar in the context of students' own writing. Along with a comprehensive treatment of the process of writing paragraphs and essays, it helps students develop the fundamental writing skills they need to succeed in college and beyond. By providing students with more help in the areas they most need it -- grammar, ESL, and high-stakes test taking -- the third

edition of *Writing First* better addresses the realities of the developmental writing course.

'A' and 'The' Explained *CreateSpace*

How to Use 'A' and 'The' is a reference and practice book for students of English who want to understand more about 'a/an', 'the' and 'no article'. It provides a comprehensive collection of usage guidelines as well as clear and detailed explanations of a large number of exceptions and difficult cases. It is aimed at the upper-intermediate to advanced student, but will also benefit intermediate students, and is ideal for both self-study and classroom use. Nine units of explanations, including sections about the basic principles behind article use, generalising, proper nouns including geographical names, and idioms and fixed expressions. These are all illustrated with clear example sentences. Over a thousand practice questions to reinforce learning and to help students use articles more naturally, including a final unit of fifteen review exercises. Printable and photocopyable PDFs of all exercises available free at www.perfect-english-grammar.com/a-and-the.html. Three appendices which include explanations and exercises about countable and uncountable nouns and using 'some' and 'any'. Answers to all exercises.

The Blue Book of Grammar and Punctuation *John Wiley & Sons*

The bestselling workbook and grammar guide, revised and updated! Hailed as one of the best books around for teaching grammar, *The Blue Book of Grammar and Punctuation* includes easy-to-understand rules, abundant examples, dozens of reproducible quizzes, and pre- and post-tests to help

teach grammar to middle and high schoolers, college students, ESL students, homeschoolers, and more. This concise, entertaining workbook makes learning English grammar and usage simple and fun. This updated 12th edition reflects the latest updates to English usage and grammar, and includes answers to all reproducible quizzes to facilitate self-assessment and learning. Clear and concise, with easy-to-follow explanations, offering "just the facts" on English grammar, punctuation, and usage Fully updated to reflect the latest rules, along with even more quizzes and pre- and post-tests to help teach grammar Ideal for students from seventh grade through adulthood in the US and abroad For anyone who wants to understand the major rules and subtle guidelines of English grammar and usage, *The Blue Book of Grammar and Punctuation* offers comprehensive, straightforward instruction.

One Language, Two Grammars?
Cambridge University Press

It is well known that British and American English differ substantially in their pronunciation and vocabulary - but differences in their grammar have largely been underestimated. This volume focuses on British-American differences in the structure of words and sentences and supports them with computer-aided studies of large text collections. Present-day as well as earlier forms of the two varieties are included in the analyses. This makes it the first book-length treatment of British and American English grammar in contrast, with topics ranging from compound verbs to word order differences and tag questions. The authors explore some of the better-known contrasts, as well as a great variety of innovative themes that

have so far received little or no consideration. Bringing together the work of a team of leading scholars in the field, this book will be of interest to those working within the fields of English historical linguistics, language variation and change, and dialectology.

French Grammar For Dummies *John Wiley & Sons*

The easy way to master French grammar French Grammar For Dummies is a logical extension and complement to the successful language learning book, French ForDummies. In plain English, it teaches you the grammatical rules of the French language, including parts of speech, sentence construction, pronouns, adjectives, punctuation, stress and verb tenses, and moods. Throughout the book, you get plenty of practice opportunities to help you on your goal of mastering basic French grammar and usage. Grasp the grammatical rules of French including parts of speech, sentence construction, and verb tenses Enhance your descriptive speech with adverbs, adjectives, and prepositions Benefit from plenty of practice opportunities throughout the book Use the French language confidently and correctly Whether you're a student studying French or a professional looking to get ahead of the pack by learning a second language, French Grammar For Dummies is your hands-on guide to quickly and painlessly master the written aspect of this popular language.

Comparative Forms in British and American English *Grin Publishing*

Seminar paper from the year 2010 in the subject English - Grammar, Style, Working Technique, grade: 2,3, language: English, abstract: First, the

development of adjective forms of comparison should be clarified from the old English until nowadays to explain the shifts of comparative structures in two national standards. The major change in the development of comparative formation across time span is the shift in American English from synthetic to analytic comparatives. The Standard English shows another pattern of development: the change from analytic to synthetic comparatives. Secondly, the major differences between British and American varieties in the usage of adjective forms should be explained. Focusing on the syllabic structure and frequency of adjectives, it will be shown that American English prefers more analytic comparatives than British English. Additionally, American variety uses fewer comparatives of both synthetic and analytic kind than British variety (Gonzalez-Diaz 2008, Hilpert 2007, Mondorf 2009, Kyto and Romaine 2000). Moreover, the investigation of different text types and complexity of those texts will help to explain the difference in usage of adjective comparison between two national standards. Finally, the development of American English in relation to British English will be outlined. In most cases, American English develops independently from British English in terms of adjective formation. American variety prefers innovations whereas British variety tends to preserve older features. This supports the idea that American English does not follow the steps of British English in terms of comparative structure change. So, to regard the American variety as an instance of colonial lag should be misleading. A better understanding of these issues will be presented in the following pages.

Many Luscious Lollipops *Puffin*

Brief rhyming text and pictures introduce adjectives and their uses.

Funniest Lecture Ever

Adjectives, in multiple incarnations, form the focus of this lecture. Study the ways we turn adjectives into comparatives and superlatives, and review the much-criticized issue of double comparatives. Look also at adjectives that change meanings depending on where they appear in a sentence, as well as noun phrases in which the adjective, uncharacteristically, appears after the noun.

The College Panda's SAT Writing *College Panda*

A second edition fully updated for the current SAT (2018 and beyond) This book brings together everything you need to know for the SAT writing section, from the simplest to the most advanced grammar rule. Unlike most other test prep books, this one is truly geared towards the student aiming for the perfect score. It leaves no stones unturned. Inside, You'll Find: Clear explanations of all the tested SAT grammar rules, from the simplest to the most obscure Tons of examples to illustrate each question type and the different ways it can show up Hundreds of drills and practice questions to help you master the concepts The most common mistakes students make (so you don't make them) Three practice tests Fun illustrations Changes from the 1st edition include: Additional chapters on topics that have been added to the exam (faulty comparisons, pairs, singular plural noun inconsistency) An overview of the present perfect and past perfect tenses (with additional exercise questions) More tips, common traps, and

examples in the "Topic, Conclusion, & Transition Sentences" chapter A completely revised "Odds & Ends" chapter now with two exercises (now encompasses question mark errors, point of view errors, and more) Removal of paragraph placement section and exercises (seemingly no longer tested) Fleshed out "Data Interpretation" chapter with tips and examples Removal of "Comparatives vs. Superlatives" chapter (not tested) An even easier to understand section on Dashes and Colons More strategies in the "Combining Sentences" chapter Fixes for all known typos in the 1st edition Improvements to the "Word Choice" chapter More answer explanations to questions that students have frequently asked about A handful of edits to the practice tests This is the most thorough SAT prep out there. For more sample chapters and information, check out [http: //thecollegepanda.com/books](http://thecollegepanda.com/books)

Miss Suzy's Easter Surprise *Aladdin Paperbacks*

Miss Suzy, a squirrel, interrupts her Easter preparations to become a temporary mother to four little orphan squirrels.

The Comparison of Adjectives in English in the XV and the XVI Century (Classic Reprint) *Forgotten Books*

The Comparison of Adjectives in English in the XV and the XVI Century *Forgotten Books*

Excerpt from The Comparison of Adjectives in English in the XV and the XVI Century The following dissertation deals with the comparison of adjectives in English in the middle period of development. The fifteenth and the sixteenth century represent the transition from Middle to New English, when forms and spellings are being fixed, and the fate of many new constructions determined. A systematic survey of the morphological and syntactical facts connected with the history of adjective comparison in these centuries is necessary to a complete history of adjective comparison in English, a history which may well be worked out century by century. Further, such inquiry should help to fix chronologically the shifts of meaning in certain irregular or anomalous comparatives and superlatives, and the development of certain new forms. Throughout, two things have been kept steadily in mind, the relation of the forms and constructions discussed to those in preceding centuries, to Old English and Middle English, and, second,

their relation to the forms and constructions found in Shakespeare and later English. Shakespeare, coming at the close of the sixteenth century, marks the terminus ad quern of the period here treated. Frequent reference is made in the following to Franz's Shakespeare Grammatik, a book which is indispensable to the student of Elizabethan English. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This

book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
