Using Priming Methods In Second Language Research Second ...

This volume features a collection of empirical studies which use priming methods to explore the comprehension, production, and acquisition of second language (L2) phonology, syntax, and lexicon. The term priming refers to the phenomenon in which prior exposure to specific language forms or meanings influences a speaker's subsequent language comprehension or production.

Applying priming methods to L2 learning, teaching and ...

In a typical priming experiment a subject is exposed, in each trial, to a first stimulus (the 'prime'), then to a second stimulus (the 'target'), while performing a constant task on the target stimulus. The relation between prime and target is experimentally manipulated.

Priming Method: Imaging Unconscious Repetition Priming ...

For example, "cat" and "mouse" are two words that are often linked with one another in memory, so the appearance of one of the words can prime the subject to respond more rapidly when the second word appears. Repetition priming occurs when a stimulus and response are repeatedly paired. Because of this, subjects become more likely to respond in a certain way more quickly each time the stimulus appears.
