Contract drilling and oilfield service companies have suffered tremendously from the COVID-19 pandemic, but as drilling activity is starting to pick up, so will the share prices in this subsector **Betting On A Rebound In Oil Drilling | OilPrice.com**

Oil drilling is the process of extracting crude oil by drilling through the cap rock. In the extraction process, the most challenging part is locating crude oil, since it is found under the cap rocks that can be several miles thick. So, geologists need to study the surface material, source rock, and reservoir rock as a preliminary step.
