This World, Other Worlds

Sickness, Suicide, Death, and the Afterlife Among the Vaqueiros de Alzada of Spain

University of Chicago Press

The Vaqueiros de Alzada, a cattle-herding people in the Asturian mountains of Spain, have one of the highest suicide rates in Europe—and an attitude toward death that gives this statistic unusual meaning. This World, Other Worlds considers death among the Vaqueiros as a central cultural fact which reveals local ideas about the origin and destiny of humans, the relations of humans and animals, the configuration of the universe, and the nature of society. Interested chiefly in the conceptual and meaningful aspects of death, María Cátedra focuses on the cultural resources with which the Vaqueiros confront their own mortality—how they experience death and what this reveals about the way they see this world and other worlds. Applying sensitive ethnographic insight to a rich body of oral testimony, Cátedra discloses an unsuspected symbolic universe native to the Vaqueiros. Death is seen here in close, coherent relation to pain, age, and suffering; sickness and suicide, one must understand the cultural valuation of different ways of dying and the conditions under which suicides take place. To understand what it means to be a Vaqueiro is to understand how suicide can be perceived by a people as acceptable. A groundbreaking work in European ethnography, This World, Other Worlds takes symbolic analysis to a new level. In its illumination of local conceptions of death, grace, and sainthood, the book also makes a substantial contribution to the anthropology of religion.

Understanding Prayer for the Dead

Its Foundation in History and Logic

ISD LLC

Throughout history, Christians have prayed for the dead - both for continual growth of the faithful and for their advancement from purgatory, and sometimes, even, for the deliverance of the unsaved

from hell. Understanding Prayer for the Dead defends all three kinds of prayer. It challenges Protestants, who seldom pray for the dead, to begin doing so - and Roman Catholics and Eastern Orthodox, who pray only for the Christian dead, to include the unsaved as well. James B. Gould addresses the biblical credentials of prayer for the dead and provides a historical overview of such prayers from ancient Christianity to the current practice of the three main branches of the Church. He also discusses the logical assumptions prayer for the dead requires - that prayer is effective, that the dead are conscious, and that the afterlife involves change - and lays out a theological framework for such prayers. Prayer for the departed raises the most basic of theological questions, matters that go to the centre of God's purpose in creating spiritual beings and redeeming sinful humankind. The argument, while revisionary in some respects, is orthodox, ecumenical, and integrative, engaging a range of academic disciplines so as to be biblically accurate, historically informed, and philosophically reasoned.

Modes and Effects of Christianity among Indigenous Peoples of the Americas *Routledge*

Native Christians reflects on the modes and effects of Christianity among indigenous peoples of the Americas drawing on comparative analysis of ethnographic and historical cases. Christianity in this region has been part of the process of conquest and domination, through the association usually made between civilizing and converting. While Catholic missions have emphasized the 'civilizing' process, teaching the Indians the skills which they were expected to exercise within the context of a new societal model, the Protestants have centered their work on promoting a deep internal change, or 'conversion', based on the recognition of God's existence. Various ethnologists and scholars of indigenous societies have focused their interest on understanding the nature of the transformations produced by the adoption of Christianity. The contributors in this volume take native thought as the starting point, looking at the need to relativize these transformations. Each author examines different ethnographic cases throughout the Americas, both historical and contemporary, enabling the reader to understand the indigenous points of view in the processes of adoption and transformation of new practices, objects, ideas and values.
