CIRIA Culvert, Outfall & Screen Manual (RP1075) CIRIA are currently coordinating a project to produce a new manual for the design and operation of culverts, highways outfalls, and trash and security screens. The work is funded by the Environment Agency, Transport Scotland, Network Rail and Highways England.

CIRIA Culvert, Outfall & Screen Manual (RP1075) Survey

Provides updated guidance for the whole-life design, operation and maintenance of culverts, screens and outfalls as part of flood risk management

operations. Also covers hydraulic design, inspection, assessment, repair, replacement and removal for new and existing culverts, screens and outfalls.

Culvert, screen and outfall manual - The Construction ...

The outfall system is designed to comply with environmental criteria and hydraulic requirements for a specific design flow rate and effluent composition. Subsequently, the system will not perform to the design (environmental and physical) requirements should the effluent is discharged at a reduced flow rate

3.1 Water Quality Objectives

Seawater Intake & Brine Outfall Systems - EPCM Holdings

The design and siting of submarine outfalls is a complex task that relies on many disciplines including oceanography, civil and environmental engineering, marine biology, construction, economics, and public relations. Marine Wastewater Outfalls and Treatment Systems brings these disciplines together and outlines all tasks involved in the planning and design of a wastewater system involving a marine outfall.

Marine Wastewater Outfalls and Treatment Systems

Design Manual for Roads and Bridges
The DMRB was introduced in 1992 in

England and Wales, and later in Scotland and Northern Ireland. It includes all current standards, advice notes and other documents relating to the design, assessment and operation of trunk roads, including motorways.

Standards for Highways

While reflecting the significant changes that have occurred in asset management over the last 20 years, the manual supplements the outfall and culvert design sections of the UK Design manual for roads and bridges (DMRB). Written by a team of specialists in hydrology, hydraulics, civil engineering and asset management, this manual is for use in all the nations of the UK and is relevant to local authorities, planning authorities, designers, managers and asset owners.
