**The Cambridge Encyclopedia of Language**

Looks at the variety, history, structure, and behavior of language, and discusses language learning, foreign language teaching, and linguistics

**The Cambridge Encyclopedia of Language****The Cambridge Encyclopedia of Language****The Cambridge Encyclopedia of the English Language** *Cambridge University Press*

Now in its third edition, The Cambridge Encyclopedia of the English Language provides the most comprehensive coverage of the history, structure and

worldwide use of English. Fully updated and expanded, with a fresh redesigned layout, and over sixty audio resources to bring language extracts to life, it covers all aspects of the English language including the history of English, with new pages on Shakespeare's vocabulary and pronunciation, updated statistics on global English use that now cover all countries and the future of English in a post-Brexit Europe, regional and social variations, with fresh insights into the growing cultural identities of 'new Englishes', English in everyday use with new sections on gender identities, forensic studies, and 'big data' in corpus linguistics, and digital developments, including the emergence of new online varieties in social media platforms such as Facebook, Twitter and WhatsApp.

Packed with brand new colour illustrations, photographs, maps, tables and graphs, this new edition is an essential tool for a new generation of twenty-first-century English language enthusiasts.

**The Cambridge Encyclopedia of Language** *Cambridge University Press*

This new, thoroughly revised edition of the acclaimed Cambridge Encyclopedia of Language incorporates the major developments in language study which have taken place since the mid 1990s. Two main new areas have been added: the rise of electronic communication in all its current forms from email to texting, and the crisis affecting the world's languages, of which half are thought to be so seriously endangered

that they will die out this century. • All language statistics have been updated, and additional information provided about their linguistic affiliation • All topics involving technology have been revised to take account of recent developments, notably in phonetics, language disability, and computing • Maps have been revised to include new countries or country names • Special attention has been paid to fast-moving areas such as language teaching and learning • The text design has been completely updated with many new illustrations throughout

**The Cambridge Encyclopedia of the Language Sciences** *Cambridge University Press*

Have you lost track of developments in

generative linguistics, finding yourself unsure about the distinctive features of Minimalism? Would you like to know more about recent advances in the genetics of language, or about right hemisphere linguistic operation? Has your interest in narrative drawn you to question the relation between stories and grammars? The Cambridge Encyclopedia of the Language Sciences addresses these issues, along with hundreds of others. It includes basic entries for those unfamiliar with a given topic and more specific entries for those seeking more specialized knowledge. It incorporates both well-established findings and cutting-edge research and classical approaches and new theoretical innovations. The volume is aimed at readers who have an interest in some

aspect of language science but wish to learn more about the broad range of ideas, findings, practices, and prospects that constitute this rapidly expanding field, a field arguably at the center of current research on the human mind and human society.

### **The Cambridge Encyclopedia of the World's Ancient Languages**

Examines the writing systems, morphology, phonology, syntax, and lexicon of ancient languages.

### **The Cambridge Encyclopedia**

An up-to-date reference source offers more than forty thousand entries and a quick reference section of facts and figures.

**The Cambridge Encyclopedia of the English Language** *Cambridge University Press*

Rarely has a book so packed with accurate and well researched factual information been so widely read and popularly acclaimed. This Second Edition of The Cambridge Encyclopedia of the English Language has been fully revised for a new generation of language-lovers. The book is longer and includes extensive new material on world English and Internet English, in addition to completely updated statistics, further reading suggestions and other references. First Edition Hb (1995): 0-521-40179-8 First Edition Pb (1997): 0-521-59655-6 David Crystal is a leading authority on language, and author of many books, including most recently

Shakespeare's Words (Penguin, 2002), Language and the Internet (Cambridge, 2001) and Language Death (Cambridge, 2000). An internationally renowned writer, journal editor, lecturer and broadcaster, he received an Order of the British Empire in 1995 for his services to the English language.

**Language and the Internet** *Cambridge University Press*

A revealing insight into the language of the Internet, looking at e-mail, chat, the

Web, instant messaging and blogging.

**The Stories of English** *Abrams*

The English language is now accepted as the global lingua franca of the modern age, spoken or written in by over a quarter of the human race. But how did it evolve? How did a language spoken originally by a few thousand Anglo-Saxons become one used by more than 1,500 million? What developments can be seen as we move from Beowulf to Chaucer to Shakespeare to Dickens and the present day? A host of fascinating questions are answered in *The Stories of English*, a groundbreaking history of the language by David Crystal, the world-renowned writer and commentator on English. Many books have been written about English, but they have all focused

on a single variety: the educated, printed language called “standard” English. David Crystal turns the history of English on its head and instead provides a startlingly original view of where the richness, creativity and diversity of the language truly lies—in the accents and dialects of nonstandard English users all over the world. Whatever their regional, social or ethnic background, each group has a story worth telling, whether it is in Scotland or Somerset, South Africa or Singapore. Interweaved within this central chronological story are accounts of uses of dialect around the world as well as in literary classics from *The Canterbury Tales* to *The Lord of the Rings*. For the first time, regional speech and writing is placed center stage, giving a sense of

the social realities behind the development of English. This significant shift in perspective enables the reader to understand for the first time the importance of everyday, previously marginalized, voices in our language and provides an argument too for the way English should be taught in the future.

**The English Language** *Panpac Education Pte Ltd*

**Concise Encyclopedia of Languages of the World** *Elsevier*

Concise Encyclopedia of Languages of the World is an authoritative single-volume reference resource comprehensively describing the major languages and language families of the world. It will provide full descriptions of

the phonology, semantics, morphology, and syntax of the world's major languages, giving insights into their structure, history and development, sounds, meaning, structure, and language family, thereby both highlighting their diversity for comparative study, and contextualizing them according to their genetic relationships and regional distribution. Based on the highly acclaimed and award-winning Encyclopedia of Language and Linguistics, this volume will provide an edited collection of almost 400 articles throughout which a representative subset of the world's major languages are unfolded and explained in up-to-date terminology and authoritative interpretation, by the leading scholars in linguistics. In

highlighting the diversity of the world's languages — from the thriving to the endangered and extinct — this work will be the first point of call to any language expert interested in this huge area. No other single volume will match the extent of language coverage or the authority of the contributors of Concise Encyclopedia of Languages of the World.

- \* Extraordinary breadth of coverage: a comprehensive selection of just under 400 articles covering the world's major languages, language families, and classification structures, issues and disputes
- \* Peerless quality: based on 20 years of academic development on two editions of the leading reference resource in linguistics, Encyclopedia of Language and Linguistics
- \* Unique authorship: 350 of the world's leading

experts brought together for one purpose

- \* Exceptional editorial selection, review and validation process: Keith Brown and Sarah Ogilvie act as first-tier guarantors for article quality and coverage
- \* Compact and affordable: one-volume format makes this suitable for personal study at any institution interested in areal, descriptive, or comparative language study - and at a fraction of the cost of the full encyclopedia

### **The Cambridge Encyclopedia**

20,000 more words, covers full-colour flags for the world's 203 countries, maps of the continents, oceans and earthquake zones, European trade organisations, and the effects of global warming and acid rain.

reference source in its field

## **How Language Works**

### **How Babies Babble, Words Change Meaning, and Languages Live or Die** *Penguin*

Steven Pinker meets Bill Bryson in this landmark exploration of language. In the author's own words, "How Language Works is not about music, cookery, or sex. But it is about how we talk about music, cookery, and sex-or, indeed, anything at all." Language is so fundamental to everyday life that we take it for granted. But as David Crystal makes clear in this work of unprecedented scope, language is an extremely powerful tool that defines the human species. Crystal offers general

readers a personal tour of the intricate workings of language. He moves effortlessly from big subjects like the origins of languages, how children learn to speak, and how conversation works to subtle but revealing points such as how email differs from both speech and writing in important ways, how language reveals a person's social status, and how we decide whether a word is rude or polite. Broad and deep, but with a light and witty touch, *How Language Works* is the ultimate layman's guide to how we communicate with one another.

**The Cambridge Encyclopedia of Human Growth and Development**  
*Cambridge University Press*

A comprehensive and accessible summary of human growth and

development for students and professionals alike.

**English as a Global Language**  
*Cambridge University Press*

David Crystal's classic *English as a Global Language* considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book

written by an expert both for specialists in the subject and for general readers interested in the English language.

**The Cambridge Encyclopedia of the Jesuits** *Cambridge University Press*

Founded in 1540 by Ignatius of Loyola, the Society of Jesus (Jesuits) has been praised as a saintly god-send and condemned as the work of Satan. With some 600 entries written by 110 authors - those inside and outside the order - this encyclopedia opens up the complexities of Jesuit history and explores the current life and work of this Catholic religious order and its global vocation. Approximately 230 entries are biographies, focusing on key people in Jesuit history, while the majority of the entries focus on Jesuit ideals, concepts,

terminology, places, institutions, and events. With some 70 illustrations highlighting the centrality of visual images in Jesuit life, this encyclopedia is a comprehensive volume providing accessible and authoritative coverage of the Jesuits' life and work across the continents during the last five centuries.

**A Little Book of Language**

A narrative history of language ranges from the first words of an infant to the modern dialect of text messaging, discussing linguistic styles, the origin of accents, and the search for the first written word.

**Language Death** *Cambridge University Press*

Looks at the reasons languages fall into

disuse and often become extinct.

### **The Ancient Languages of Europe**

*Cambridge University Press*

This book, derived from the acclaimed Cambridge Encyclopedia of the World's Ancient Languages, describes the ancient languages of Europe, for the convenience of students and specialists working in that area. Each chapter of the work focuses on an individual language or, in some instances, a set of closely related varieties of a language. Providing a full descriptive presentation, each of these chapters examines the writing system(s), phonology, morphology, syntax and lexicon of that language, and places the language within its proper linguistic and historical context. The volume brings together an international

array of scholars, each a leading specialist in ancient language study. While designed primarily for scholars and students of linguistics, this work will prove invaluable to all whose studies take them into the realm of ancient language.

### **The Cambridge Encyclopedia of Historical Performance in Music**

*Cambridge University Press*

Recent decades have seen a major increase of interest in historical performance practice, but until now there has been no comprehensive reference tool available on the subject. This fully up-to-date, illuminating and accessible volume will assist readers in rediscovering and recreating as closely as possible how musical works may

originally have sounded. Focusing on performance, this Encyclopedia contains entries in categories including issues of style, techniques and practices, the history and development of musical instruments, and the work of performers, scholars, theorists, composers and editors. It features contributions from more than 100 leading experts who provide a geographically varied survey of both theory and practice, as well as evaluation of and opinions on the resolution of problems in period performance. This timely and ground breaking book will be an essential resource for students, scholars, teachers, performers and audiences.

### **The Ancient Languages of Mesopotamia, Egypt and Aksum**

*Cambridge University Press*

A convenient, portable paperback derived from the acclaimed Cambridge Encyclopedia of the World's Ancient Languages.

### **The Cambridge Encyclopedia of Japan** *Cambridge University Press*

The Cambridge Encyclopedia of Japan is the essential reference to all facets of Japan past and present. Up to date, authoritative and wide ranging in scope, it covers all the general reader, student, business person, journalist, researcher, tourist or armchair traveler would want to know. A highly absorbing read, the Encyclopedia is also filled with the facts, figures and general data on Japan that make it an indispensable source of information. Learn, for example, that the

safest place to be during an earthquake in Japan is in a bamboo grove; or that one of the greatest delicacies of Japanese cuisine, the fugu, is deadly poisonous in the hands of an unskilled chef. Also included are the latest statistics on Japan's dramatically aging population, a complete listing of its prime ministers, and valuable data on the powerful Japanese advertising industry.

**A Dictionary of Language** *University of Chicago Press*

No ordinary dictionary, David Crystal's Dictionary of Language includes not only descriptions of hundreds of languages literally from A to Z (Abkhaz to Zyryan) and definitions of literary and grammatical concepts, but also

explanations of terms used in linguistics, language teaching, and speech pathology. If you are wondering how many people speak Macedonian, Malay, or Makua, or if you're curious about various theories of the origins of language, or if you were always unsure of the difference between structuralism, semiotics, and sociolinguistics, this superbly authoritative dictionary will answer all of your questions and hundred of others.

**The Cambridge Encyclopedia of Brass Instruments** *Cambridge University Press*

Some thirty-two experts from fifteen countries join three of the world's leading authorities on the design, manufacture, performance and history of

brass musical instruments in this first major encyclopaedia on the subject. It includes over one hundred illustrations, and gives attention to every brass instrument which has been regularly used, with information about the way they are played, the uses to which they have been put, and the importance they have had in classical music, sacred rituals, popular music, jazz, brass bands and the bands of the military. There are specialist entries covering every inhabited region of the globe and essays on the methods that experts have used to study and understand brass instruments. The encyclopaedia spans the entire period from antiquity to modern times, with new and unfamiliar material that takes advantage of the latest research. From Abblasen to Zorsi

Trombetta da Modon, this is the definitive guide for students, academics, musicians and music lovers.

**Encyclopedia of Anthropology** *SAGE*

Collects 1,000 entries on the subfields on anthropology, including physical anthropology, archaeology, paleontology, linguistics, and evolution.

**The MIT Encyclopedia of Communication Disorders** *MIT Press*

This volume offers almost 200 detailed entries covering the entire range of communication and speech disorders in children and adults, from basic science to clinical diagnosis. It is divided into four sections that reflect the standard categories with the field: voice, speech, language and hearing.

## **On Heroes, Hero-worship, & the Heroic in History**

### **Six Lectures ; Reported, with Emendations and Additions**

## **The Cambridge Encyclopedia of Darwin and Evolutionary Thought** *Cambridge University Press*

This volume is a comprehensive reference work on the life, labors, and influence of the great evolutionist Charles Darwin. With more than sixty essays written by an international group representing the leading scholars in the field, this is the definitive work on Darwin. It covers the background to Darwin's discovery of the theory of evolution through natural selection, the work he produced and his

contemporaries' reactions to it, and evaluates his influence on science in the 150 years since the publication of *Origin of Species*. It also explores the implications of Darwin's discoveries in religion, politics, gender, literature, culture, philosophy, and medicine, critically evaluating Darwin's legacy. Fully illustrated and clearly written, it is suitable for scholars and students as well as the general reader. The wealth of information it provides about the history of evolutionary thought makes it a crucial resource for understanding the controversies that surround evolution today.

## **Think on My Words**

## **Exploring Shakespeare's Language**

*Cambridge University Press*

So how can we better understand Shakespeare? David Crystal provides a lively and original introduction to Shakespeare's language, making his plays easily accessible to modern-day audiences.

### **The Cambridge Encyclopedia to Human Evolution**

### **The Fight for English**

### **How Language Pundits Ate, Shot, and Left** *Oxford University Press*

Combining a chronological survey of key influences in the area of usage with discussion of such themes as punctuation, spelling, and pronunciation, tells the story of the battles surrounding

English usage.

### **Concise Encyclopedia of Sociolinguistics** *Pergamon Press*

This encyclopedia provides an overview of the vast subject of sociolinguistics for an audience who may be unfamiliar or just becoming familiar with the area. It also includes a handy reference to key concepts and discipline.

### **Babel No More**

### **The Search for the World's Most Extraordinary Language Learners** *Simon and Schuster*

A "fascinating" (The Economist) dive into the world of linguistics that is "part travelogue, part science lesson, part intellectual investigation...an

entertaining, informative survey of some of the most fascinating polyglots of our time" (The New York Times Book Review). In *Babel No More*, Michael Erard, "a monolingual with benefits," sets out on a quest to meet language superlearners and make sense of their mental powers. On the way he uncovers the secrets of historical figures like the nineteenth-century Italian cardinal Joseph Mezzofanti, who was said to speak seventy-two languages, as well as those of living language-superlearners such as Alexander Arguelles, a modern-day polyglot who knows dozens of languages and shows Erard the tricks of the trade to give him a dark glimpse into the life of obsessive language acquisition. With his ambitious examination of what language is, where

it lives in the brain, and the cultural implications of polyglots' pursuits, Erard explores the upper limits of our ability to learn and use languages and illuminates the intellectual potential in everyone. How do some people escape the curse of Babel—and what might the gods have demanded of them in return?

### **The Story of Spanish** *St. Martin's Press*

Just how did a dialect spoken by a handful of shepherds in Northern Spain become the world's second most spoken language, the official language of twenty-one countries on two continents, and the unofficial second language of the United States? Jean-Benoît Nadeau and Julie Barlow, the husband-and-wife team who chronicled the history of the French language in *The Story of French*,

now look at the roots and spread of modern Spanish. Full of surprises and honed in Nadeau and Barlow's trademark style, combining personal anecdote, reflections, and deep research, *The Story of Spanish* is the first full biography of a language that shaped the world we know, and the only global language with two names—Spanish and Castilian. The story starts when the ancient Phoenicians set their sights on "The Land of the Rabbits," Spain's original name, which the Romans pronounced as Hispania. The Spanish language would pick up bits of Germanic culture, a lot of Arabic, and even some French on its way to taking modern form just as it was about to colonize a New World. Through characters like Queen Isabella, Christopher Columbus,

Cervantes, and Goya, *The Story of Spanish* shows how Spain's Golden Age, the Mexican Miracle, and the Latin American Boom helped shape the destiny of the language. Other, more somber episodes, also contributed, like the Spanish Inquisition, the expulsion of Spain's Jews, the destruction of native cultures, the political instability in Latin America, and the dictatorship of Franco. *The Story of Spanish* shows there is much more to Spanish than tacos, flamenco, and bullfighting. It explains how the United States developed its Hispanic personality from the time of the Spanish conquistadors to Latin American immigration and telenovelas. It also makes clear how fundamentally Spanish many American cultural artifacts and customs actually are, including the dollar

sign, barbecues, ranching, and cowboy culture. The authors give us a passionate and intriguing chronicle of a vibrant language that thrived through conquests and setbacks to become the tongue of Pedro Almodóvar and Gabriel García Márquez, of tango and ballroom dancing, of millions of Americans and hundreds of millions of people throughout the world.

**The Cambridge Encyclopedia of Amateur Astronomy** *Cambridge University Press*

This complete reference provides a wealth of practical information covering all aspects of amateur astronomy. Organized thematically for ease of use, it covers observing techniques, telescopes and observatories, internet resources, and the objects that can be studied.

Those new to the field will find tips, techniques and plans on how to begin their quest, and more advanced observers will find useful advice on how to get more from their hobby. Michael E. Bakich obtained a bachelors degree in Astronomy from Ohio State University and a masters degree in Planetarium Education from Michigan State University. He has written numerous original planetarium programs, and gives lectures on astronomy to groups of all ages. He is also a tour guide to eclipses and astro-archaeological sites. Bakich has written two previous books: *The Cambridge Planetary Handbook* (2000) and *The Cambridge Guide to the Constellations* (1995), both published by Cambridge University Press.

## Lingo

### **Around Europe in Sixty Languages**

*Open Road + Grove/Atlantic*

Six thousand years. Sixty languages. One “brisk and breezy” whirlwind armchair tour of Europe “bulg[ing] with linguistic trivia” (The Wall Street Journal). Take a trip of the tongue across the continent in this fascinating, hilarious and highly edifying exploration of the many ways and whys of Euro-speaks—its idiosyncrasies, its histories, commonalities, and differences. Most European languages are descended from a single ancestor, a language not unlike Sanskrit known as Proto-Indo-European (or PIE for short), but the continent’s ever-changing borders and cultures have given rise to a linguistic and cultural

diversity that is too often forgotten in discussions of Europe as a political entity. Lingo takes us into today’s remote mountain villages of Switzerland, where Romansh is still the lingua franca, to formerly Soviet Belarus, a country whose language was Russified by the Bolsheviks, to Sweden, where up until the 1960s polite speaking conventions required that one never use the word “you.” “In this bubbly linguistic endeavor, journalist and polyglot Dorren thoughtfully walks readers through the weird evolution of languages” (Publishers Weekly), and not just the usual suspects—French, German, Yiddish, Irish, and Spanish. Here, too are the esoteric—Manx, Ossetian, Esperanto, Gagauz, and Sami, and that global headache called English. In its sixty bite-

sized chapters, Dorret offers quirky and hilarious tidbits of illuminating facts, and also dispels long-held lingual misconceptions (no, Eskimos do not have 100 words for snow). Guaranteed

to change the way you think about language, Lingo is a “lively and insightful . . . unique, page-turning book” (Minneapolis Star Tribune).
