Although this branch of scientific research is already about two centuries old, as a truly independent one it has been in a stage of lively development since only a few decades ago and this is why a first course at the E. Majorana Center was devoted to it. Since bioelectrochemistry consists of many sub-fields, it is impossible to include, even superficially, all of them in a short course lasting just a week, and therefore the chapter of redox-reactions was chosen for this first course as ...

Bioelectrochemistry I - Biological

Redox Reactions | G ...

Building upon the ideas of membrane structure, Wilson returned to the theme of biological redox reactions and discussed the respiratory chain in mitochondria. He described the four different complexes in the electron transport chain of the inner mitochondrial membrane and some of their spectral and potentiometric properties.
