MIT CAST creates new opportunities for art, science & technology to thrive as interrelated, mutually informing modes of knowledge and discovery.

MIT Center for Art, Science & Technology

Regardless of the critics, if technology has elevated art, art has also managed to do the same for science. John Gould (1804-1881) helped identify and paint Darwin's finches, which would later be one of the most central arguments in his theory of evolution.

How Art and Science Intersect - EDGY Labs

Science, Art, and Technology began as a year-long course offered by The Art Institute of Chicago to Chicago Public School science teachers interested in exploring the relationship between science and art within a museum setting.

Science, Art and Technology - Art Institute of Chicago

In this review, we summarize the knowledge of the production and properties of charcoal that has been accumulated over the past 38 millennia. The manipulation of pressure, moisture content, and gas flow enables biomass carbonization with fixed-carbon yields that approach or attain the theoretical limit after reaction times of a few tens of minutes. Much of the heat needed to carbonize the feed is ...

The Art, Science, and Technology of Charcoal Production ...

The Arts and Technology (ATEC) program at the University of Texas at Dallas is dedicated to, as their motto states, merging the innovation processes of artists, scientists and engineers by exploring experimental models through new technologies.

The Serious Relationship of Art and Technology | Widewalls

Anna Dumitriu is a British artist who is passionate about art and science collaboration, participatory public engagement in science through art, and the role of art to help us consider the cultural, ethical and societal implications of new technologies. She works with sculpture, installation and biological media to explore our relationship to infectious diseases, synthetic biology and robotics.

Science and the Arts Section | British Science Association

Both science and art have useful spin-offs. Applied science is technology. Applied art is decoration. Technology and decoration are applications of science and art for practical purposes.

Why Art And Science Are More Closely Related Than You Think

From glass models of microbes and viruses to giant Aeolian harps, Jerram uses science like few other artists. His research deals with perception across all of our senses (including the fact that he is color blind). Jerram builds and manages teams of specialists, including engineers and technicians, to help create the elaborate works he conceives.
