Volkswagen Engine Sensor Locations

From what I read on the net, the sensor should be next to the gear box on the right side of the engine. I looked in front of the engine on the right side, up and down and could not find it. In the back, I have the speed sensor for the dashboard, but this is mounted on the gear box. I can't find the G28 sensor.

Volkswagen Engine Sensor Locations - wiki.ctsnet.org

Al-though V-engines have a very short overall length, they are rather wide - with a V-angle of 60° or 90° - and hence cannot be used in smaller mid-range vehicles. V-engine with an angle of 15° The VR engines and the new V5 engine

combine the advantages of the V-concept with the advantages of the inline engine. These are:

The fuel rail pressure sensor is located on the engine. Once you remove the engine cover you will be able to see the fuel rail. The fuel rail pressure sensor is mounted on the fuel rail. If you are getting fault code P0190 check for power at the sensor. You should get 5 volts at the sensor with the ignition on. Check continuity for the sensor itself using a digital multimeter.
