 The book argues that rapidly evolving
 technology will upend the power
 structure of society. It gives power to the
 youngster who doesn't have
 preconceptions and entrenched
 interests. By making information readily
 available, the internet erodes the power
 and mystique of many professions.

[Review]**

So when I heard the buzz on Michael Lewis' Next: The Future Just Happened, it was an instant "One-Click"! What I found

was a book that overstates and oversells its thesis, but is still a valuable look at how the Web is beginning to affect our culture in unanticipated ways. This is not a scholarly effort by any means.

**Next: The Future Just Happened:
Lewis, Michael ...**

In The Future Just Happened, Lewis shows how the Internet is the ideal demonstration model for the sociologists who believe that our "selves are merely the masks we wear in response to the social situations in which we find ourselves". It is the place where a New Jersey boy barely into his teens flouts the investment system, making big enough bucks to get the SEC breathing down his back for stock market fraud.
