An Introduction To Intonation Functions And Models Gtobi

In contemporary approaches, intonation is characterized by a constituent structure (the prosodic hierarchy). In its simplest form, this is a simple two level structure: Although intonation may indicate

some aspects of syntactic structure, intonational phrasing is not isomorphic to syntactic structure.

Functions of Intonation - University of Oxford

N.V. Cheremisina singles out the following main functions of intonation: communicative, distinctive (or phonological), delimitating, expressive, appellative, aesthetic, integrating. Other Russian and foreign phoneticians also display some difference in heading the linguistic functions of intonation.

Intonation: approaches, definitions, functions

In linguistics,

intonation is variation in spoken pitch when used, not for distinguishing words as sememes (a concept known as tone), but, rather, for a range of other functions such as indicating the attitudes and emotions of the speaker, signalling the difference between statements and questions, and between different types of questions, focusing attention on important elements of the spoken message and also helping to regulate conversational interaction.

Intonation (linguistics) - Wikipedia

Intonation has an attitudinal or emotional function, which means it conveys additional information about the speaker's mood,

feelings, emotions, or attitude. This type of information we get from intonation could be about the speaker's general attitude, their emotions about what they're saying, or their feelings towards the listener.

can signal to the listener what is to be taken as "new" information and what is already "given". It can indicate when the speaker is indicating some sort of contrast or link with material in another tone unit.
