Custer Died for Your Sins

An Indian Manifesto *University of Oklahoma Press*

The author speaks for his people in this witty confutation of almost everything the white man "knows" about Native Americans

Custer Died For Your Sins *Simon and Schuster*

Standing Rock Sioux activist, professor, and attorney Vine Deloria, Jr., shares his thoughts about US race relations, federal bureaucracies, Christian churches, and social scientists in a collection of eleven eye-opening essays infused with humor. This "manifesto" provides valuable insights on American Indian history, Native

American culture, and context for minority protest movements mobilizing across the country throughout the 1960s and early 1970s. Originally published in 1969, this book remains a timeless classic and is one of the most significant nonfiction works written by a Native American.

Indians and Anthropologists

Vine Deloria, Jr., and

the Critique of Anthropology

University of Arizona Press

In 1969 Vine Deloria, Jr., in his controversial book *Custer Died for Your Sins*, criticized the anthropological community for its impersonal dissection of living Native American cultures. Twenty-five years later, anthropologists have become more sensitive to Native American concerns, and Indian people have become more active in fighting for accurate representations of their cultures. In this collection of essays, Indian and non-Indian scholars examine how the relationship between anthropology and Indians has changed over that quarter-century and show how controversial

this issue remains. Practitioners of cultural anthropology, archaeology, education, and history provide multiple lenses through which to view how Deloria's message has been interpreted or misinterpreted. Among the contributions are comments on Deloria's criticisms, thoughts on the reburial issue, and views on the ethnographic study of specific peoples. A final contribution by Deloria himself puts the issue of anthropologist/Indian interaction in the context of the century's end.

Custer Died for Your Sins

An Indian Manifesto

God Is Red *Laurel*

Argues that Christianity has failed in this country and urges a return to the spiritual roots found in the heritage of Indian culture

The Indian Reorganization Act

Congresses and Bills *University of Oklahoma Press*

In 1934, Commissioner of Indian Affairs John Collier began a series of "congresses" with

American Indians to discuss his proposed federal bill for granting self-government to tribal reservations. In "The Indian Reorganization Act," Vine Deloria, Jr., compiled the actual historical records of those congresses and made available important documents of the premier years of reform in federal Indian policy as well as the bill itself.

Red Earth, White Lies

Native Americans and the Myth of Scientific Fact

Fulcrum Publishing

Vine Deloria, Jr., leading Native American scholar and author of the best-selling *God is Red*, addresses the conflict between mainstream

scientific theory about our world and the ancestral worldview of Native Americans. Claiming that science has created a largely fictional scenario for American Indians in prehistoric North America, Deloria offers an alternative view of the continent's history as seen through the eyes and memories of Native Americans. Further, he warns future generations of scientists not to repeat the ethnocentric omissions and fallacies of the past by dismissing Native oral tradition as mere legends.

The World We Used to Live In

Remembering the Powers of the Medicine Men

Fulcrum Publishing

In his final work, the great and beloved Native American scholar Vine Deloria Jr. takes us into the realm of the spiritual and reveals through eyewitness accounts the immense power of medicine men. *The World We Used To Live In*, a fascinating collection of anecdotes from tribes across the country, explores everything from healing miracles and scared rituals to Navajos who could move the sun. In this compelling work, which draws upon a lifetime of scholarship, Deloria shows us how ancient powers fit into our modern understanding of science and the cosmos, and how future generations may draw strength from the old ways.

We Talk, You Listen

New Tribes, New Turf *U of Nebraska Press*

We Talk, You Listen is strong, boldly unconventional medicine from Vine Deloria Jr. (1933-2005), one of the most important voices of twentieth-century Native American affairs. Here the witty

and insightful Indian spokesman turns his penetrating vision toward the disintegrating core of American society. Written at a time when the traditions of the formerly omnipotent Anglo-Saxon male were crumbling under the pressures of a changing world, Deloria's book interprets racial conflict, inflation, the ecological crisis, and power groups as symptoms rather than causes of the American malaise: "The glittering generalities and mythologies of American society no longer satisfy the need and desire to belong," a theory as applicable today as it was in 1970. American Indian tribalism, according to Deloria, was positioned to act as America's

salvation. Deloria proposes a uniquely Indian solution to the legacy of genocide, imperialism, capitalism, feudalism, and self-defeating liberalism: group identity and real community development, a kind of neo-tribalism. He also offers a fascinating cultural critique of the nascent "tribes" of the 1970s, indicting Chicanos, blacks, hippies, feminists, and others as misguided because they lacked comprehensive strategies and were led by stereotypes rather than an understanding of their uniqueness. Vine Deloria Jr. (Standing Rock Sioux, 1933-2005) was the author of more than twenty books, including *Custer Died for Your Sins*, *Behind*

the Trail of Broken Treaties, and *God Is Red*. Suzan Shown Harjo (Cheyenne & Muscogee) is a poet, lecturer, curator, columnist for *Indian Country Today*, policy advocate, and president of the Morning Star Institute, a national Indian rights organization.

Custer Died for Your Sins

**American Indians,
American Justice**
University of Texas Press

This comprehensive overview of federal Indian law explores the context and complexities of modern Native American politics and legal rights. Both accessible and authoritative, *American Indians, American Justice* is an

essential sourcebook for all concerned with the plight of the contemporary Indian. Beginning with an examination of the historical relationship of Indians and the courts, the authors describe how tribal courts developed and operate today, and how they relate to federal and state governments. They also define such key legal concepts as tribal sovereignty and Indian Country. By comparing and contrasting the workings of Indian and non-Indian legal institutions, the authors illustrate how Indian tribes have adapted their customs, values, and institutions to the demands of the modern world. They examine how attorneys and Indian advocates defend Indian rights;

identify the typical challenges Indians face in the criminal and civil legal arenas; and explore the public policy and legal rights of Indians as regards citizenship, voting rights, religious freedom, and basic governmental services.

Indians of the Pacific Northwest

From the Coming of the White Man to the Present Day *Fulcrum Publishing*

The Pacific Northwest was one of the most populated and prosperous regions for Native Americans before the coming of the white man. By the mid-1800s, measles and smallpox decimated the Indian population, and the remaining tribes were forced to give up their

ancestral lands. Vine Deloria Jr. tells the story of these tribes' fight for survival, one that continues today.

Custer Died for Your Sins

An Indian Manifesto

Power and Place

Indian Education in America *Fulcrum Publishing*

Power and Place examines the issues facing Native American students as they progress through schools, colleges, and on into professions. This collection of sixteen essays is at once philosophic, practical, and visionary. It is an effort to open discussion about the unique experience of Native Americans and offers a

concise reference for administrators, educators, students and community leaders involved with Indian Education.

Speaking Of Indians

Pickle Partners Publishing

Beginning with a general discussion of American Indian origins, language families, and culture areas, Deloria then focuses on her own people, the Dakotas, and the intricate kinship system that governed all aspects of their life. She writes, "Exacting and unrelenting obedience to kinship demands made the Dakotas a most kind, unselfish people, always acutely aware of those about them and innately courteous." Deloria goes on to show the

painful transition to reservations and how the holdover of the kinship system worked against Indians trying to follow white notions of progress and success. Her ideas about what both races must do to participate fully in American life are as cogent now as when they were first written. Originally published in 1944, "Speaking of Indians" is an important source of information about Dakota culture and a classic in its elegant clarity of insight.

The Nations Within

The Past and Future of American Indian Sovereignty

Pantheon

The message of *The Nations Within* is an urgent one, and should be read by anyone

concerned with American Indian affairs today. "Those of us who try to understand what is happening in North American Indian communities have learned to see Vine Deloria, Jr., both as an influential actor in the ongoing drama and also as its most knowledgeable interpreter. This new book on Indian self-rule is the most informative that I have seen in my own half-century of reading. Deloria and his co-author focus on John Collier's struggle with both the U.S. Congress and the Indian tribes to develop a New Deal for Indians fifty years ago. It is a blow-by-blow historical account, perhaps unique in the literature, which may be the only way to show the full

complexity of American Indian relations with federal and state governments. This makes it possible in two brilliant concluding chapters to clarify Indian points of view and to build onto initiatives that Indians have already taken to suggest which of these might be most useful for them to pursue. The unheeded message has been clear throughout history, but now we see how—if we let Indians do it their way—they might more quickly than we have imagined rebuild their communities.” —Sol Tax, Professor Emeritus of Anthropology, University of Chicago

Life of the Indigenous Mind

Vine Deloria Jr. and

the Birth of the Red Power Movement *U of Nebraska Press*

In *Life of the Indigenous Mind* David Martínez examines the early activism, life, and writings of Vine Deloria Jr. (1933-2005), the most influential indigenous activist and writer of the twentieth century and one of the intellectual architects of the Red Power movement. An experienced activist, administrator, and political analyst, Deloria was motivated to activism and writing by his work as executive director of the National Congress of American Indians, and he came to view discourse on tribal self-determination as the most important objective for making a viable future for tribes. In this work of both

intellectual and activist history, Martínez assesses the early life and legacy of Deloria's "Red Power Tetralogy," his most powerful and polemical works: *Custer Died for Your Sins* (1969), *We Talk, You Listen* (1970), *God Is Red* (1973), and *Behind the Trail of Broken Treaties* (1974). Deloria's gift for combining sharp political analysis with a cutting sense of humor rattled his adversaries as much as it delighted his growing readership. *Life of the Indigenous Mind* reveals how Deloria's writings addressed Indians and non-Indians alike. It was in the spirit of protest that Deloria famously and infamously confronted the tenets of Christianity, the policies of the Bureau

of Indian Affairs, and the theories of anthropology. The concept of tribal self-determination that he initiated both overturned the presumptions of the dominant society, including various "Indian experts," and asserted that tribes were entitled to the rights of independent sovereign nations in their relationship with the United States, be it legally, politically, culturally, historically, or religiously.

God Is Red

A Native View of Religion

ReadHowYouWant

First published in 1972, Vine Deloria Jr.'s *God Is Red* remains the seminal work on Native religious views, asking new questions about

our species and our ultimate fate. Celebrating 3 decades in publication with a special 30th-anniversary edition, this classic work reminds us to learn "that we are a part of nature, not a transcendent species with no responsibilities to the natural world." It is time again to listen to Vine Deloria Jr.'s powerful voice, telling us about religious life that is independent from Christianity and that reveres the interconnectedness of all living things.

Tribes, Treaties, and Constitutional Tribulations

University of Texas Press

"Federal Indian law . . . is a loosely related collection of past and

present acts of Congress, treaties and agreements, executive orders, administrative rulings, and judicial opinions, connected only by the fact that law in some form has been applied haphazardly to American Indians over the course of several centuries. . . . Indians in their tribal relation and Indian tribes in their relation to the federal government hang suspended in a legal wonderland." In this book, two prominent scholars of American Indian law and politics undertake a full historical examination of the relationship between Indians and the United States Constitution that explains the present state of confusion and inconsistent

application in U.S. Indian law. The authors examine all sections of the Constitution that explicitly and implicitly apply to Indians and discuss how they have been interpreted and applied from the early republic up to the present. They convincingly argue that the Constitution does not provide any legal rights for American Indians and that the treaty-making process should govern relations between Indian nations and the federal government.

For a brief but brilliant season beginning in the late 1960s, American Indians

seized national attention in a series of radical acts of resistance. Like a Hurricane is a gripping account of the dramatic, breathtaking events of this tumultuous period. Drawing on a wealth of archival materials, interviews, and the authors' own experiences of these events, Like a Hurricane offers a rare, unflinchingly honest assessment of the period's successes and failures.

American Indian Politics and the American Political System *Rowman & Littlefield*

""This book is a lively and accessible account of the remarkably complex legal and political situation of American Indian tribes

and tribal citizens (who are also U.S. citizens) David E. Wilkins and Heidi Kiiwetinepinesiik Stark have provided the 'go-to' source for a clear yet detailed and sophisticated introduction to tribal sovereignty and federal Indian policy. It is a valuable resource both for readers unfamiliar with the subject matter and for readers in Native American studies and related fields, who will appreciate the insightful and original scholarly analysis of the authors."--Thomas Biolsi, University of California at Berkeley

"American Indian Politics and the American Political System is simply an indispensable compendium of fact and reason on the historical and modern

landscape of American Indian law and policy. No teacher or student of American Indian studies, no policymaker in American Indian policy, and no observer of American Indian history and law should do without this book. There is nothing in the field remotely as comprehensive, usable, and balanced as Wilkins and Stark's work."--Matthew L. M. Fletcher, director of the Indigenous Law and Policy Center at Michigan State University College of Law

"Wilkins has written the first general study of contemporary Indians in the United States from the disciplinary standpoint of political science. His inclusion of legal matters results in sophisticated

treatment of many contemporary issues involving Native American governments and the government of the United States and gives readers a good background for understanding other questions. The writing is clear-not a minor matter in such a complex subject--and short case histories are presented, plus links (including websites) to many sources of information."--Choice

C. G. Jung and the Sioux Traditions

Dreams, Visions, Nature and the Primitive

While visiting the United States, C. G. Jung visited the Taos Pueblo in New Mexico, where he spent several hours with Ochwiay Biano, Mountain Lake,

an elder at the Pueblo. This encounter impacted Jung psychologically, emotionally, and intellectually, and had a sustained influence on his theories and understanding of the psyche. Dakota Sioux intellectual and political leader, Vine Deloria Jr., began a close study of the writings of C. G. Jung over two decades ago, but had long been struck by certain affinities and disjunctures between Jungian and Sioux Indian thought. He also noticed that many Jungians were often drawn to Native American traditions. This book, the result of Deloria's investigation of these affinities, is written as a measured comparison between the psychology of C. G.

Jung and the philosophical and cultural traditions of the Sioux people. Deloria constructs a fascinating dialogue between the two systems that touches on cosmology, the family, relations with animals, visions, voices, and individuation.

Custer and the 1873 Yellowstone Survey

A Documentary History *University of Oklahoma Press*

Progress on the nation's second transcontinental railroad slowed in 1873. The Northern Pacific's proposed middle—the 250 miles between present Billings and Glendive, Montana—had yet to be surveyed, and Sioux and Cheyenne Indians

opposed construction through the Yellowstone Valley, the heart of their hunting grounds. A previous surveying expedition along the Yellowstone River in 1872 had resulted in the death of a prominent member of the party, the near-death of the railroad's chief engineer, the embarrassment of the U.S. Army, and a public relations and financial disaster for the Northern Pacific. Such is the backdrop for Custer and the 1873 Yellowstone Survey, the story of the expedition told through documents selected and interpreted by historian M. John Lubetkin. The U.S. Army was determined to punish the Sioux, and the Northern Pacific desperately needed to complete its

engineering work and resume construction. The expedition mounted in 1873—larger than all previous surveys combined—included “embedded” newspaper correspondents and 1,600 infantry and cavalry, the latter led by George Armstrong Custer. Lubetkin has gathered firsthand accounts from the correspondents, diarists, and reporters who accompanied this important expedition, including that of news correspondent Samuel J. Barrows. Barrows’s narrative—written in a series of dispatches to the New York Tribune—provides a comprehensive, often humorous description of events, and his proficiency with shorthand enabled him

to capture quotations and dialogue with an authenticity unmatched by other writers on the survey. The expedition marched west from the Missouri River in mid-June of 1873 and, in three months, covered nearly 1,000, often grueling miles. Encompassing the saga of transcontinental railroading, cultural conflict on the northern plains, and an array of important Indian and Anglo-American characters, Custer and the 1873 Yellowstone Survey will fascinate Custer fans and anyone interested in the history of the American West.

Origin

A Genetic History of the Americas *Twelve*

AN INSTANT NEW YORK TIMES BESTSELLER! From celebrated anthropologist Jennifer Raff comes the untold story—and fascinating mystery—of how humans migrated to the Americas. ORIGIN is the story of who the first peoples in the Americas were, how and why they made the crossing, how they dispersed south, and how they lived based on a new and powerful kind of evidence: their complete genomes. ORIGIN provides an overview of these new histories throughout North and South

America, and a glimpse into how the tools of genetics reveal details about human history and evolution. 20,000 years ago, people crossed a great land bridge from Siberia into Western Alaska and then dispersed southward into what is now called the Americas. Until we venture out to other worlds, this remains the last time our species has populated an entirely new place, and this event has been a subject of deep fascination and controversy. No written records—and scant archaeological evidence—exist to tell us what happened or how it took place. Many different models have been proposed to explain how the Americas were peopled and what happened in

the thousands of years that followed. A study of both past and present, **ORIGIN** explores how genetics is currently being used to construct narratives that profoundly impact Indigenous peoples of the Americas. It serves as a primer for anyone interested in how genetics has become entangled with identity in the way that society addresses the question "Who is indigenous?"

sweeping history—and counter-narrative—of Native American life from the Wounded Knee massacre to the present. The received idea of Native American history—as promulgated by books like Dee Brown's mega-bestselling 1970 *Bury My Heart at Wounded Knee*—has been that American Indian history essentially ended with the 1890 massacre at Wounded Knee. Not only did one hundred fifty Sioux die at the hands of the U. S. Cavalry, the sense was, but Native civilization did as well. Growing up Ojibwe on a reservation in Minnesota, training as an anthropologist, and researching Native life past and present for his nonfiction and novels, David Treuer has uncovered a different narrative. Because they did not disappear—and not despite but rather because of their intense struggles to preserve their language, their traditions, their families, and their very existence—the story of American Indians since the end of the nineteenth century to the present is one of unprecedented resourcefulness and reinvention. In *The Heartbeat of Wounded Knee*, Treuer melds

history with reportage and memoir. Tracing the tribes' distinctive cultures from first contact, he explores how the depredations of each era spawned new modes of survival. The devastating seizures of land gave rise to increasingly sophisticated legal and political maneuvering that put the lie to the myth that Indians don't know or care about property. The forced assimilation of their children at government-run boarding schools incubated a unifying Native identity. Conscription in the US military and the pull of urban life brought Indians into the mainstream and modern times, even as it steered the emerging shape of self-rule and spawned a new

generation of resistance. The Heartbeat of Wounded Knee is the essential, intimate story of a resilient people in a transformative era.

Dawnland Voices

**An Anthology of
Indigenous Writing
from New England** *U
of Nebraska Press*

Dawnland Voices calls attention to the little-known but extraordinarily rich literary traditions of New England's Native

Americans. This pathbreaking anthology includes both classic and contemporary literary works from ten New England indigenous nations: the Abenaki, Maliseet, Mi'kmaq, Mohegan, Narragansett, Nipmuc, Passamaquoddy, Penobscot, Schaghticoke, and Wampanoag. Through literary collaboration and recovery, Siobhan Senier and Native tribal historians and scholars have crafted a unique volume covering a variety of genres and historical periods. From the earliest petroglyphs and petitions to contemporary stories and hip-hop poetry, this volume highlights the diversity and strength of New England Native literary

traditions. Dawnland
Voices introduces
readers to the
compelling and unique
literary heritage in New
England, banishing the
misconception that
“real” Indians and their
traditions vanished

from that region
centuries ago.
