Stop Sabotaging Your Life

3 Steps to Your Full Potential *Createspace Independent Pub*

In Stop Sabotaging Your Life: 3 Steps To Your Full Potential, acclaimed life coach Bruno LoGreco shares his simple path to achieving healthy mental and emotional independence.How many times have you caught yourself thinking something like this?: I'm not enough—good enough...smart enough...good looking enough...successful enough.... LoGreco says we sabotage our lives by focusing too much on being what others want us to be and do, and not spending enough time listening to our own hearts and minds. Some people try to find self-acceptance and contentment through counseling, but end up trapped on the therapy treadmill. Others try to go it alone, but still end up in a tiresome process of navel-gazing that never leads to personal fulfillment. LoGreco offers a three-step plan to help you reach your own potential: self-awareness (recognize what you have been doing, and why); rebuilding values (learn a different way to do things); and reach your full potential (identify opportunities and set meaningful goals). You will learn to leverage your strengths to stop chasing illusions and work toward achieving your dreams.LoGreco doesn't claim his book will cure everything that ails you. As he says, “There is no secret formula, no magic pill that will make you happy, productive, and successful. You must challenge your beliefs and take back control of your choices. Don't just think outside the box—break out of it altogether.”What clients and readers are saying about life coach, mentor, and motivational speaker Bruno LoGreco:“As a divorced mother of three, I've encountered many obstacles, mostly personal ones within myself. I wondered why I kept repeating the same patterns with the men I was dating and why it always ended badly, usually with me being hurt, and questioned what 'I' was doing wrong. Bruno taught me how to love myself again, how to respect myself and above all else, BELIEVE in myself.... Bruno saved me from my self-destructive patterns. Without his help, I wouldn't be the confident woman I am today. I am a better mother for that.”— Cristina“The world is filled with very successful executives who for decades focus every waking minute on professional accolades and professional development [only to] realize they haven't take the time out to focus on personal development in terms of a better balance in life, being in touch with their spiritual side and inner self, and even the fun side of life. That would describe me in the past.... I came across Bruno, and I knew he was the man. His personality exudes authenticity and geniality. The man simply knows his stuff, has this uncanny ability to read between the lines, and zero in instantly on underlying triggers. His structured approach steers you to address issues head on; challenges you to challenge yourself; opens your mind; helps you understand behaviors, experiences and patterns; gets you in touch with yourself; fuels a sense of purpose and passion; and escorts you to chart a new course to life. He never judges, but relentlessly encourages and empowers you. He's truly a brilliant, genuine and a humane person with an infectious enthusiasm to make you seize your inborn potential.” —Adrian“If I had to sum up my experience with Bruno in one word, it would be 'awakened.' Bruno helped me see life from a different perspective, which is what I needed, but most importantly, he showed me how to do that myself without being dependent on him.... Bruno got me to step outside of my comfort zone and do things I normally wouldn't have done otherwise, which is undoubtedly the key to growth.” —Blaine

How to Write a PhD in Less Than 3 Years

A Practical Guide *AuthorHouse*

I have purchased the ' Personalized Back Cover' option and this is the text that should appear at the back cover of my book: Is there room for yet another book on PhD-writing? Yes there is. Most of the available publications on this topic are contributions from professional academics, written from the perspective of supervisors or examiners rather than from that of successful candidates. Most of them are too long and not always user-friendly, while their approach is, more often than not, too scientific to be accessible to the average candidate. It is with these considerations in mind that the author, an average doctoral candidate who wrote his PhD thesis while working full-time, submitting his written work for examination within 24 months of becoming registered as a research student in one of the UK's top Law Schools, set out to write this book, which is, uniquely, written from a student's perspective. What makes of this work an original contribution is not the novelty of the topic addressed in it but, rather, its brevity, its practical approach, its simplicity, the background of its author (a recent, successful PhD candidate) and the motivation of its author: to help candidates complete their PhD thesis in under three years, as the author of this book did. This short book contains a wealth of practical advice and guidance on the issues involved in conceptualizing, organizing and writing your doctoral thesis so that you can increase your chances of surviving the ordeal of PhD thesis writing with the least amount of pain and with the minimum investment in terms of the time and effort spent pursuing your objective.

Mental Toughness

How to Develop an Unbeatable Mindset and an Unbreakable Will *Createspace Independent Publishing Platform*

There are a lot of self-help books out on the market today, each one promising you success if you will follow the prescribed formula. They establish "recipes for success" if you follow their plan and stick to it. This ebook, however, is different. It is not a how-to manual or recipe for success. Rather, it is a series of proven strategies designed to help you achieve mental toughness and become resilient to the many adversities that you will inevitably face in life. You can become a better person. You can achieve your goals, but not before you set them and make a plan. You can transform anger and other unpleasant emotions into positive energy to help you overcome adversity and achieve your goals, but not before you become self-aware and understand your own tendencies behind anger. You can focus better so that you can get the job done, but not before you take reasonable steps to eliminate or significantly reduce the distractions in your life. In short, you can be the best you out there! However, first you must change how you think about yourself. You must eliminate the negative self-talk and significantly reduce the negative influences in your life. You must surround yourself with positive people who are on your side, in your corner, willing to do whatever they are able to do to help you achieve your goals. This ebook will guide you on transforming adversity, anger, and unpleasant emotions so that they generate more positive outcomes, setting realistic goals and achieving them, enabling your focus so that you can get the task accomplished, reducing the stress in your life so that you can overcome stressful situations, and unlocking your true potential. It also has easily accessible information on the 25 cognitive biases, "the psychology of human misjudgment," as laid out by billionaire Warren Buffett's partner, Charlie Munger. Understanding the 25 cognitive biases will help you better know yourself and make better decisions that consistently place you ahead of the crowd. In this ebook, a lot of emphasis is placed on setting manageable, achievable goals and making a plan to accomplish them. There is a difference between goals and dreams. Dreams reflect our highest aspirations - becoming a New York Times bestselling author, competing in the Olympics, being in Forbes Magazine as a Top 50 entrepreneur. Goals, however, are realistic expectations that we can set for ourselves and then achieve as part of our own pathways to success. Ultimately, that success may look like being a New York Times bestselling author or an Olympic athlete. It may also look like making a down payment on a house, paying off a mortgage, getting a promotion at work, or opening your own business. This ebook will help you set the goals that you need to set in order to enable your true success that reflects your own core values and potential. Enjoy reading this ebook, and may it influence and empower you to become the best person that you can be!

Meditations for All the Days of the Year

Originally written in the mid-1800s by Fr. Andre-Jean-Marie Hamon, a holy French priest, this five-volume set has a beautiful new layout and new formatting yet retains the charm of the original text. A time-honored guide for daily personal spiritual direction since the mid-1800s, many generations of families have handed down "Meditations for All the Days of the Year" to their children. Whether or not you have a spiritual director, these daily readings will guide your soul through today's turbulent times--bringing you closer to God and assisting your growth in virtue. These prayerful, thought-provoking, and powerful lessons will help you achieve holiness on your journey towards a joyful and happy life, while making firm strides toward Heaven. This five-volume set promises to become a family heirloom that you will hand down for generations, too. About the author: Born in 1795, Fr. Andre-Jean-Marie Hamon was to become a professor of dogma at the seminary of St. Sulpice in Paris in 1821, a seminary superior in 1843, and later, pastor of St. Sulpice in Paris in 1851. Fr. Hamon turned down the office of Bishop all three times it was offered to him, preferring instead to work with the poor and write spiritual works. He published a number of works anonymously or sometimes used the pseudonym J. Huen-Dubourg, borrowed from his mother's name, Lehuen-Dubourg. Fr. Hamon died in 1874.

Becoming Zara

FUN FACT: "Becoming Zara" is a standalone novella, but if you're following the character of Samantha Bradford as she crosses off the items of her bucket list (the Single Wide Female Series), this is the book that Samantha publishes to complete her bucket list item #18 (Publish a Book). Note: You can download #1 Learn Pole Dancing of that series for free. *** Hi, I'm Zara...warrior princess. I don't usually tell that last bit to strangers, but I say it in my head all the time. It's one of the many mantras that have helped me to get to where I am today. And believe me when I say that I've come a long way. Besides, if you're a woman and you happen to have ever struggled with issues of self-esteem, we're probably gonna be fast friends anyway, so I won't hold anything (much) back. Oh, and Zara wasn't the name I was born with-but you'll find out more about that in the book. I don't

know about you, but my own struggle with my weight has held me back a bit in life. And my self-esteem took a real nose dive after my fiance dumped me-via text, no less. (I know, right? Jerk!...but I don't usually dwell on things in the past, so let's just move right along from that, shall we?) So, I'm still a work-in-progress for sure, but I'm really starting to figure it all out-how to be more of who I'm meant to be every day-including the bumps, the lumps, and my bruised ego along the way. Oh and I love my sisterhood (more about that later) - the women who join me in believing that we are all capable of being strong, amazing, warrior princesses-just the way we are right now."

What Stress Can Do

Whether it's your daily dealings at work or a pervasive concern for your physical safety, the stress you regularly experience may actually be more harmful than the threat that triggered it. Not only can it lead to isolation and an erosion of happiness, stress can be biologically harmful, bringing about health issues, such as heart disease, high blood pressure, ulcers, and strokes. In short, successfully managing stress could be nothing less than a life-or-death situation. Now, professional biofeedback practitioner Harry L. Campbell presents "What Stress Can Do," his unprecedented guide to the importance of minimizing everyday stress in order to short-circuit its many serious side effects. What's more, his easy-to-implement recommendations enable you to do so without use of any drugs. Recent data on the prevalence of stress documents that as much as 90 percent of all doctors' office visits are related to stress. However, with the right skills and perspective, you can preempt the physical fallout from the tolls of daily life, and gain new mastery over your mind. The time is right to take a step back, breathe easy, and once and for all address all that ails you.

How to Design GPS/GNSS Receivers Books 2, 3, 4 & 5

The Principles, Applications & Markets *A. B. Lawal*

The objective of this book is to provide you the reader a complete systems engineering treatment of GNSS. I am an expert with practical experience in GPS/GNSS design and similar areas that are addressed within the book. I provide a thorough, in-depth treatment of each topic. In this book, updated information on GPS and GLONASS is presented. In particular, descriptions of new satellites, such as GPS III and GLONASS K2 and their respective signal sets (e.g., GPS III L1C and GLONASS L3OC), are included. In this combined volume I provide in-depth technical descriptions of each emerging satellite navigation system: BeiDou, Galileo, QZSS, and NavIC. Dedicated chapters cover each system's constellation configuration, satellites, ground control system and user equipment. Detailed satellite signal characteristics are also provided. Recently, I've heard from many engineers that they learned how GPS receivers work from this title. In this title, the design is included, and treatment of receivers is updated and expanded in several important ways. New material has been added on important receiver components, such as antennas and front-end electronics. The increased complexity of multiconstellation, multifrequency receivers, which are rapidly becoming the norm today, is addressed in detail. Other added features of this title are the clear step-by-step design process and associated trades required to develop a GNSS receiver, depending on the specific receiver application. This subject will be of great value to those readers who need to understand these concepts, either for their own design tasks or to aid their satellite navigation system engineering knowledge. To round out the discussion of receivers, updated treatments of interference, ionospheric scintillation, and multipath are provided along with new material on blockage from foliage, terrain, and man-made structures. Now there has been major developments in GNSS augmentations, including differential GNSS (DGNSS) systems, Precise Point Positioning (PPP) techniques, and the use of external sensors/networks. The numerous deployed or planned satellite-based augmentation system (SBAS) networks are detailed, including WAAS, EGNOS, MSAS, GAGAN, and SDCM, as are groundbased differential systems used for various applications. The use of PPP techniques has greatly increased in recent years, and the treatment in this title has been expanded accordingly. Material addressing integration of GNSS with other sensors has been thoroughly revamped, as has the treatment of network assistance as needed to reflect the evolution from 2G/3G to 4G cellular systems that now rely on multiconstellation GNSS receiver engines. While this title has generally been written for the engineering/scientific community, one of the series is devoted to GNSS markets and applications. Marketing projections (and the challenge thereof) are enumerated and discussion of the major applications is provided. As in all the series, this book is structured such that a reader with a general science background can learn the basics of GNSS. The reader with a stronger engineering/scientific background will be able to delve deeper and benefit from the more in-depth technical material. It is this ramp-up of mathematical/technical complexity along with the treatment of key topics that enables this publication to serve as a student text as well as a reference source.

The Amazing Book of No *Createspace Independent Publishing Platform*

The Amazing Book of No was just announced as a Winner of the 2015 Readers Favorite Award for K-3rd grade readers. "The Amazing Book of No" is a deceptively simple story that will teach your 3-7 year old how to accept the word "no" when you say it, and why they shouldn't argue. The story is about two moms and their children. One mom says "no" all the time, while the other says "yes" to everything. It is cute and engaging all in one, and designed not to take up too much of a parents valuable time, with the idea being to try and imprint wholesome ideals while kids are young. Reading this just a few times to your boy or girl at bedtime will ensure you don't have any misunderstandings with your children about the word "NO" as they grow older. This really is: The Amazing Book of No!

How to Shoot Friends and Influence People: Chopper 3 Momentum

'Crims and screws agree on one thing: that the people who run prisons wouldn't know if a tram was up them unless you rang the bell.' How to Shoot Friends and Influence People, Mark Brandon 'Chopper' Read's third book, was written behind bars as Chopper faced life in prison for a shooting he claimed he didn't commit. For this book, Chopper obtained confidential and extensive prison files relating to him under the Freedom of Information Act. These included psychological assessments, plus prison classification and discipline records. They provide a fascinating insight into how this maverick criminal dealt with the prison system over two decades. Featuring the infamous story of Tanya and Eddy, Chopper's coming-of-age yarn from his 18th birthday, plus reflections on the end of his long-term relationship and what it's like to be the most famous author-in-residence at Risdon Prison, this third volume of his memoirs contains more tales of the criminal underworld told in Chopper's unique style.
