International Safety Management Code

ISM Code and Revised Guidelines on the Implementation of the ISM Code by Administrations

ISM Code

International Safety Management Code with Guidelines for Its Implementation

4th ed. With the entry into force, in 1998, of the 1994 amendments to SOLAS, 1974, which

introduced a new chapter IX into the Convention, the ISM Code was made mandatory. The Code, in its current form, was adopted by the Organization in 1993 and amended in 2000, 2004, 2005, 2008 and 2013. This publication is essential for all those with an interest in ensuring safety at sea; ship owners and operators, shipping companies, shipbuilder, and institutes providing training

International Safety Management Code and Guidelines on

Implementation of the ISM Code

With the entry into force, In 1998, Of the 1994 amendments to SOLAS, 1974, which introduced a new chapter IX into the Convention, The ISM Code was made mandatory. The ISM Code's origins go back To The late 1980s, when there was mounting concern about poor management standards in shipping. Its current form was adopted by the Organisation in 1993 and amended in 2000, 2004, 2005 and 2008

remains a great deal of confusion about the potential legal and insurance implications of the Code. This third edition represents a major re-write and addresses significant amendments that were made to the ISM Code on 1st July 2010 and 1st January 2015. This book provides practitioners with a practical overview of, and much needed guidance on, the potential implications of failing to implement the requirements of the Code. It will be hugely valuable to DPAs, managers of ship operating companies, ship masters, maritime lawyers and insurance claims staff.

Seafarers' assessment in the implementation of

International Safety Management (ISM) code

This study examines the overall effectivity in implementing and communicating the ISM Code to its seafarers through its merchant vessels. Survey questionnaires were used to gather the data while the technique of stratified random sampling using Slovin's formula was used to choose the respondents. The respondents of the research were stratified based on the manning agent they are currently employed. The researcher employed the use of Runs test or Wald Wolfowitz, a non-parametric statistical test in checking the hypothesis. The researcher formulated survey questions which

were focused mainly on the views of the seafarers and their understanding of the ISM Code in implementing the ISM Code's purpose. The findings showed that seafarers are knowledgeable in ISM Code and that compliance to it is very well implemented onboard. Moreover, the results show that the merchant vessels comply with the regulations set forth in the ISM Code through the trainings given to the seafarers, emergency drills and documentation, audit, and evaluation of prevention activities. However, the results of the audits which could greatly help improve the compliance and awareness of the seafarers are not often discussed nor informed

to them. The result of the study helps structure a good grounding on how the ISM Code safeguards the life of the passengers. It also instills awareness to the society on the benefits of the shipping industry to the environment and its personnel.

Furthermore, the result abets in determining whether the implementation process and job knowledge of the personnel on board is acceptable to the standards of the ISM Code.

International Safety Management Code

Industrial Urgency and Market Research for the Implementation of ISM Code at Maine

Maritime Academy

International Safety Management Code was adopted by the International Maritime Organization in 1998 and serves to provide an international standard for the safe management and operation of ships and for pollution prevention. Surveys conducted at international maritime universities and Maine Maritime Academy showed that graduates lack knowledge of basic ISM Code components, and globally, ISM Code is not an integral component of the undergraduate curriculum. This provides an opportunity for Maine Maritime Academy to develop a course of ISM Code for undergraduates and

thus enhance its brand and reinforce its image as a globally recognized leader in maritime education.-- From executive summary.
