• A hospice is required to make certain that the physician's clinical judgment can be supported by clinical information and other documentation that provide a basis for the certification of 6 months or less if the illness runs its normal course

Hospice Documentation for the IDT The Big Picture

The delivery of hospice care is based on the comprehensive assessment and the individualized plan of care, both of which require the involvement of the IDT. The comprehensive assessment is intended to assess the patient and family from a holistic point of view, not just from a medical perspective.

The Role of the IDT in Meeting Hospice Regulatory Requirements

Eligibility documentation is the primary area requiring significant improvement in most hospice programs. It is also the most at-risk area for payment by CMS. This article will focus on helping clinical hospice staff- especially chaplains to understand their role and learn ways to improve this process.
