3D computer graphics, or three-dimensional computer graphics, are

graphics that use a three-dimensional representation of geometric data that is stored in the computer for the purposes of performing calculations and rendering 2D images. The resulting images may be stored for viewing later or displayed in real time. Unlike 3D film and similar techniques, the result is two-dimensional, without the illusion of being solid. 3D computer graphics rely on many of the same algorithms as 2D computer vect
