The teaching of mathematics helps and enables students to be able to reach their own convictions, as it teaches them that to solve a problem must reach the truth, which there is no doubt because it is objective and logical. Mathematics quickens our minds and helps us, in general, to deepen and think when we are faced with complex problems. Our life is composed largely of situations of choice, approach, reasoning and facing problems to which solutions have to be found.

Life Skills Math With Teachers Guide And Answer Key, Textbook

Employment Skills Politicians and administrators often beat the drum for teaching life skills as a pathway to employment. And it's true: Learning how to dress for an interview, answer questions appropriately and be part of a team are useful for professional careers. But life skills can be more general — and fundamental — than that.
