First-call resolution or
 first contact resolution
 (FCR) is defined as a
 contact center's ability
 to resolve customer
 issues or address their
 needs the first time
 they call, with no

follow-up required. As a contact center metric, it is a vital part of the customer relationship management process.

First Contact Resolution: How to Measure and Improve It

In customer relationship management (CRM), first call resolution is properly addressing the customer's need the first time they call, thereby eliminating the need for the customer to follow up with a second call. Talk time (the average time an agent spends on each call) is a common call center performance metric.

The Complete Guide to First Contact Resolution | Unipart
First Contact

Resolution (FCR) is a percentage measure of a contact centre's success rate in answering customer queries at the first time of asking. It is a metric that is often confused with First Call Resolution, which goes by the same acronym.
