Protected areas or conservation areas are locations which receive protection because of their recognized natural, ecological or cultural values. There are several kinds of protected areas, which vary by level of protection depending on the enabling laws of each country or the regulations of the international organizations involved. Generally speaking though, protected areas are understood to be those in which human presence or at least the exploitation of natural resources is limited. The term "

Protected area - Wikipedia

Indigenous and community conserved areas, or indigenous peoples' and community conserved territories and areas, are spaces de facto governed by indigenous peoples or local communities with evidently positive outcomes for the conservation of biological and cultural diversity. In ICCAs, the continuation, revival or modification of traditional practices and/or new initiatives succeed in protecting and restoring natural resources and cultural values in the face of new threats or opportunities ...
