The Virgin Way

If It's Not Fun, It's Not Worth Doing *Portfolio*

This is a book on leadership from someone who has never read a book on leadership in his life. While building the Virgin Group over the course of forty

years, Richard Branson has never shied away from tackling seemingly outlandish challenges that others (including his own colleagues on many occasions) considered sheer lunacy. He has taken on giants like British Airways and won, and monsters like Coca-Cola and lost. Now Branson gives an inside look at his strikingly different, swashbuckling style of leadership. Learn how fun, family, passion, and the dying art of listening are key components to what his extended family of employees around the world has always dubbed (with a wink) "the Virgin Way." This unique perspective comes from a man who dropped out of school at sixteen, suffers from dyslexia, and has never worked for anyone but himself. He may be famous for thinking outside the box--an

expression he despises--but Branson asserts that "you'll never have to think outside the box if you refuse to let anyone build one around you."

Screw Finding Your Passion

It's Within You, Let's Unlock It *Susanna Halonen*

The commonly held belief that you should 'follow your passion' is flawed. Many people believe that in order to be truly happy, you need to find and follow your one and only true passion. This is a very limiting approach to passion, and one not backed up by much research. In

fact, recent research in the field of positive psychology has shown that you can live a more fulfilling life by choosing to pursue your whole life with passion. This has nothing to do with monetising the one thing that you love, but finding love in what you do. Susanna Halonen, also known as the Happyologist, introduces a new approach to passion that enables you to take control of your happiness. By highlighting the latest research in the field, including her own, Susanna explains how you can choose to unlock the passion inside you so that you can live a more fulfilling life. The secret to living life with passion is pursuing the passionate way of being, and the five keys to that secret are individually explored and discussed in this book. Each discussion is followed by questions

of self-reflection that encourage you to create your own, unique action plan to start unlocking your passion. This book is an eye opener for those who want to understand the real science behind passion. It's also a must-read for anyone who is looking for more fire, spark and positive energy in their lives and careers. Most of all, it's a tool to help you to take a more proactive approach to unearthing your best self and setting out on the path towards passionate happiness. Praise for *Screw Finding Your Passion*: "Wanting happiness and knowing how to pursue it are two different things. Scientifically, happiness is a choice, not something you find. Using new research and practical tools, Halonen helps us change the formula for how we pursue passion, allowing us to

find more ways of achieving our potential and creating joy." - Shawn Achor, positive psychology researcher and NYTimes bestselling author of *The Happiness Advantage* "It's very clear that Susanna Halonen is passionate about her work. And it's very clear that her work can help you unlock the passion within you." - Tal Ben-Shahar, author of international bestseller *Happier* "We all have times that life seems flat and not very fulfilling. Susanna's unique stance on passion will enable us to find that love for whatever we're doing right now." - Nina Grunfeld, founder of Life Clubs "This idea is so important it can't be ignored." - Elliot Newsome, founder and Managing Director of SKT Consulting

One of the world's most famous business leaders (and a well-known avian fanatic) explores the pioneers of flight. Bestselling author and billionaire entrepreneur Sir Richard Branson has always been obsessed with the skies. To promote a new Virgin Airlines route, he became the first man to water ski behind a blimp. His Virgin Galactic venture will soon offer ordinary people the opportunity to experience spaceflight aboard the first commercial spaceliner,

SpaceShipTwo. In *Reach for the Skies*, Branson examines the history of aviation over the last two hundred years, putting the spotlight on trailblazers such as: *Tony Jannus, who made the first ever commercial flight over Tampa Bay, Florida, in 1914. *Leo Valentin, the "bird man" who jumped from 9,000 feet wearing a pair of wooden wings in the 1950s. *Steve Fossett, who broke 130 world records in planes, balloons, and airships. The pioneers of flight-not just the world-famous Wright Brothers, but also lesser known visionaries and dreamers-made it possible for any of us with the desire and the commitment to reach for the skies ourselves.

One Good Turn

A Natural History of the Screwdriver and the Screw *Simon and Schuster*

The Best Tool of the Millennium The seeds of Rybczynski's elegant and illuminating new book were sown by The New York Times, whose editors asked him to write an essay identifying "the

best tool of the millennium." The award-winning author of *Home*, *A Clearing in the Distance*, and *Now I Sit Me Down*, Rybczynski once built a house using only hand tools. It is a story of mechanical discovery and genius that takes readers from ancient Greece to car design in the age of American industry. Rybczynski writes an ode to the screw, without which there would be no telescope, no microscope -- in short, no enlightenment science. One of our finest cultural and architectural historians,

Rybczynski renders a graceful, original, and engaging portrait of the tool that changed the course of civilization.

Permission to Screw Up

How I Learned to Lead by Doing (Almost) Everything Wrong *Penguin*

The inspiring, unlikely, laugh-out-loud story of how one woman learned to lead--and how she ultimately succeeded, not despite her many mistakes, but because of them. This is the story of how Kristen Hadeed built *Student Maid*, a cleaning company where people are happy, loyal, productive, and empowered, even while they're mopping floors and scrubbing toilets. It's the story of how she went from being an almost comically inept leader to a sought-after

CEO who teaches others how to lead. Hadeed unintentionally launched Student Maid while attending college ten years ago. Since then, Student Maid has employed hundreds of students and is widely recognized for its industry-leading retention rate and its culture of trust and accountability. But Kristen and her company were no overnight sensation. In fact, they were almost nothing at all. Along the way, Kristen got it wrong almost as often as she got it right. Giving out hugs instead of feedback, fixing errors instead of enforcing accountability, and hosting parties instead of cultivating meaningful relationships were just a few of her many mistakes. But Kristen's willingness to admit and learn from those mistakes helped her give her people the chance to

learn from their own screwups too. *Permission to Screw Up* dismisses the idea that leaders and organizations should try to be perfect. It encourages people of all ages to go for it and learn to lead by acting, rather than waiting or thinking. Through a brutally honest and often hilarious account of her own struggles, Kristen encourages us to embrace our failures and proves that we'll be better leaders when we do.

INSTANT NEW YORK TIMES BESTSELLER
From the #1 New York Times bestselling author of *In a Dark, Dark Wood*, *The Woman in Cabin 10*, *The Lying Game*, and *The Death of Mrs. Westaway* comes Ruth Ware's highly anticipated fifth novel. When she stumbles across the ad, she's looking for something else completely. But it seems like too good an opportunity to miss—a live-in nannying post, with a staggeringly generous salary. And when Rowan Caine arrives at Heatherbrae House, she is smitten—by the luxurious “smart” home fitted out with all modern conveniences, by the beautiful Scottish Highlands, and by this picture-perfect family. What she doesn't know is that she's stepping into a nightmare—one that will end with a

child dead and herself in prison awaiting trial for murder. Writing to her lawyer from prison, she struggles to explain the unravelling events that led to her incarceration. It wasn't just the constant surveillance from the cameras installed around the house, or the malfunctioning technology that woke the household with booming music, or turned the lights off at the worst possible time. It wasn't just the girls, who turned out to be a far cry from the immaculately behaved model children she met at her interview. It wasn't even the way she was left alone for weeks at a time, with no adults around apart from the enigmatic handyman, Jack Grant. It was everything. She knows she's made mistakes. She admits that she lied to obtain the post, and that her behavior toward the

children wasn't always ideal. She's not innocent, by any means. But, she maintains, she's not guilty—at least not of murder. Which means someone else is. Full of spellbinding menace and told in Ruth Ware's signature suspenseful style, *The Turn of the Key* is an unputdownable thriller from the Agatha Christie of our time.

Speak: The Graphic Novel *Farrar, Straus and Giroux (BYR)*

The critically acclaimed, award-winning, modern classic *Speak* is now a stunning graphic novel. "Speak up for yourself—we want to know what you have to say." From the first moment of her freshman year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsense of high school. She is friendless—an outcast—because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. Through her work on an art project, she is finally

able to face what really happened that night: She was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. With powerful illustrations by Emily Carroll, Laurie Halse Anderson's *Speak: The Graphic Novel* comes alive for new audiences and fans of the classic novel. This title has Common Core connections.

A New York Times bestseller! In this irreverently funny, one-of-a-kind book, transformational comedian Kyle Cease shows you how to love failure and follow your heart, release the addictions of

your mind, and live in a state of infinite possibility. If Eckhart Tolle and Jim Carrey had a baby, that baby would be Kyle Cease. After twenty-five years of achieving what he thought were his dreams of being a headlining touring comedian and actor, Kyle Cease suddenly discovered that the belief that “When something happens, I will be happy” is a complete lie. With nothing more than an intuition, he decided to quit his stand-up career at its peak, and now—as a transformational comedian, he brings his one-of-a-kind self-help wisdom to sold-out audiences in his *Evolving Out Loud Live* stage show. In *I Hope I Screw This Up*, he disarms readers as he leads them to their own personal breakthroughs, helping them to recognize that actual happiness and

fulfillment is available to them—not in some distant future, but right now. As he has shown audiences all over the world, when you embrace your pain, fear, and vulnerability instead of pushing it away, you will discover an authentic creativity and power that is truly unstoppable. How to Make a Spaceship

A Band of Renegades, an Epic Race, and the Birth of Private Spaceflight *Penguin*

A New York Times bestseller! The historic race that reawakened the promise of manned spaceflight A Finalist for the PEN/E. O. Wilson Literary Science Writing Award Alone in a Spartan black cockpit, test pilot Mike Melvill rocketed toward space. He had eighty seconds to exceed the speed of sound and begin the climb to a target no civilian pilot had ever reached. He might not make it back alive. If he did, he would make history as the world's first commercial astronaut. The spectacle defied reason, the result

of a competition dreamed up by entrepreneur Peter Diamandis, whose vision for a new race to space required small teams to do what only the world's largest governments had done before. Peter Diamandis was the son of hardworking immigrants who wanted their science prodigy to make the family proud and become a doctor. But from the age of eight, when he watched Apollo 11 land on the Moon, his singular goal was to get to space. When he realized NASA was winding down manned space flight, Diamandis set out on one of the great entrepreneurial adventure stories of our time. If the government wouldn't send him to space, he would create a private space flight industry himself. In the 1990s, this idea was the stuff of science fiction.

Undaunted, Diamandis found inspiration in an unlikely place: the golden age of aviation. He discovered that Charles Lindbergh made his transatlantic flight to win a \$25,000 prize. The flight made Lindbergh the most famous man on earth and galvanized the airline industry. Why, Diamandis thought, couldn't the same be done for space flight? The story of the bullet-shaped SpaceShipOne, and the other teams in the hunt, is an extraordinary tale of making the impossible possible. It is driven by outsized characters—Burt Rutan, Richard Branson, John Carmack, Paul Allen—and obsessive pursuits. In the end, as Diamandis dreamed, the result wasn't just a victory for one team; it was the foundation for a new industry and a new age.
