Review: Toyota 100-Series Landcruiser (1998-07)

Unfortunately the plastic cables and guide rails are just a bad design in these early 100 series cruisers. You are going to have to pull the headliner down to get to the sunroof assembly. The parts are really expensive and you have to know what you are doing. You can break a lot of clips and delicate parts here.

I went outside to close the sunroof as I noticed it was starting to rain. The Sunroof wont close. It closes about halfway and then opens.
