The History of Cartography, Volume 1: Cartography in ...

By emphasizing the long eighteenth century as a period in which makers and users of maps struggled with issues of truth, exactitude, and authority, Volume Four breaks with the traditional understanding of the eighteenth century as the period

when cartography became "scientific" and explores the period's broad range of mapping practices across all regions, their experience of continuity and change, and their impact on society.

Volume 4, Cartography in the European Enlightenment ...

But as the renown of the series and the comprehensiveness and acuity of the present two-part volume demonstrate, the history of cartography has proven to be unexpectedly fertile ground. "Cartography in the European Renaissance" treats the period from 1450 to 1650, long considered the most important in the history of European mapping.
