Moreover, lexing and tokenization are other names for lexical analysis, whereas syntactic analysis and parsing are the other names for syntax analysis. Functionality Lexical analysis reads the source program one character at a time

and converts it into meaningful lexemes (tokens) whereas syntax analysis takes the tokens as input and generates a parse tree as output.

What is the Difference Between Lexical Analysis and Syntax ...

Lexical functional grammar is a constraint-based grammar framework in theoretical linguistics. It posits two separate levels of syntactic structure, a phrase structure grammar representation of word order and constituency, and a representation of grammatical functions such as subject and object, similar to dependency grammar. The development of the theory was initiated by Joan Bresnan and Ronald Kaplan in the 1970s, in reaction to the theory of transformational grammar which was current in the 1

Analyzing Syntax A Lexical Functional Approach Cambridge ...

In linguistics, syntax (/ˈsɪntæks/) is the set of rules, principles, and processes that govern the structure of sentences (sentence structure) in a given language, usually including word order. The term syntax is also used to refer to the study of such principles and processes. The goal of many syntacticians is to discover the syntactic rules common to all languages.
