Design Of Post Installed And

Abstract. Post-installed and cast-in-place anchors are widely used to connect structural or nonstructural elements using a steel baseplate at the concrete structure. Generally, concrete anchors must be qualified if their failure would compromise the safety or result in substantial economic damage. Concrete anchor qualification results in technical approvals forming the basis for a code-compliant design.

how to use post-installed rebar If you’re looking to extend, join or strengthen walls, slabs, columns or beams, then post-installed rebar systems can help. Whether it’s for new or existing builds, from residential buildings to bridges, Hilti have a solution.

Post Installed Rebar - Hilti Great Britain

Before discussing the new provisions to design post-installed reinforcing bars for development, it is a good idea to review the current provisions for post-installed anchor design. Post-installed adhesive anchor systems are commonly designed with the Appendix D, Anchoring to Concrete, provisions of the ACI 318 code. Anchor elements used with adhesive anchor systems include threaded rod, internally threaded inserts, proprietary anchor elements and reinforcing bars.
