[PDF] Pro Apache Jmeter Full Download-BOOK

We use JMeter since 2007 for performance and load testing of various Web Applications (Intranet/Internet) including ECommerce websites (Number of concurrent users can vary from 1000 to 400000 per day). We used it for testing various server side technologies including .NET, PHP, ASP, J2EE

and Custom Java Servers.

JMeterUsers - Apache JMeter - Apache Software Foundation

JMeter Load Testing is a testing process done using a load testing tool named Apache JMeter which is open source desktop application based on Java. JMeter for load testing is a crucial tool that determines whether the web application under test can satisfy high load requirements or not. It also helps to analyse overall server under heavy load.
