5 out of 5 stars 55. For many of us, Excel is nothing more than a basic spreadsheet, something we may use on the odd occasion, but for some, it is part of our daily lives. The basis of Excel lies in formulas and functions, used for storing data and retrieving it, for doing calculations, and for analyzing data, and is all in one simple grid format. It is these formulas and functions that provide the biggest headaches for inexperienced users and that is what my guide is all about.
