Through "the paradoxes of expression," Landes, in fact, joins up with Merleau-Ponty's movement of thought, extends it and reveals what aspect that had remain "unthought." But also, I think it will be viewed as a classical study, rivaling the studies produced by Dillon, Madison, and Barbaras."

account of what is wrong with the Meno paradox. That is, both the empiricist and rationalist projects have not given a sufficient account of the dynamic relationship between mind and world such that developmental or learning processes can be understood.
