As stated before, it is still a challenge for medicine to deal with these subjective, unmeasurable dimensions of suffering and pain – and, moreover, their possible “unshareability” , although there have been crucial contributions like the Gate Control Theory, which has been decisive in including both the physiological and the psychological dimensions of pain as intrinsic parts of the phenomenon. Still,

pain and suffering do not only concern medicine, but also the social sciences and ...

20+ The Illness Experience Dimensions Of Suffering [EBOOK]

Clearly, there are a lot of factors to consider in the measurement of pain, and in answer to the original question, there is no ultimate threshold for pain in human beings. Researchers' best guess is that it is somewhere higher than 11 dol (somewhere between childbirth and taking a blowtorch to your face).
