1.1 JD Edwards
EnterpriseOne Data

Interface for Electronic Data Interchange Overview Electronic Data Interchange (EDI) is the paperless, computer to computer exchange of business transactions, such as purchase orders and invoices, in a standard format with standard content. As such, it is an important part of an electronic commerce strategy.

Introduction to JD Edwards EnterpriseOne Data Interface ...

Electronic Data Interchange (EDI) is the electronic interchange of business information using a standardized format; a process which allows an organization to send information to another organization electronically rather

than with paper. Business entities conducting business electronically are called trading partners.
