Overview of Design for Manufacturing and Assembly (DFMA)

Design for Excellence or Design For Excellence, are terms and expansions used interchangeably in the existing literature, where the X in design for X is a variable which can have one of many possible values. In many fields X may represent several traits or features including: manufacturability, power, variability, cost, yield, or reliability. This gives rise to the terms design for manufacturability, design for inspection, design for variability, design for cost. Similarly, other disciplines may
