World of Warcraft programming language? What programming language is used in WoW to make a certain thing happen like equipping a weapon I know it would probably be something along the lines of "If RigBtn.click = true then equip sword" or something like that but what is the actual language? Answer Save. 4 Answers.

World of Warcraft programming language? | Yahoo Answers

You have to start someplace, and the traditional place to start is with "Hello, World". To accomplish this first task you will need the following items: World of Warcraft (referred to as "WoW") installed; An editor that can work with and save pure text. An AddOn lives in a very specific place. To find

that place, first go to the WoW directory (also sometimes called a folder) using whatever file management software you have available.
