Concrete Filled Metal Pan Stair

Description Pacific Stair Corporation's 100 Series Concrete Filled Stair System is our most affordable standard stair system. These stairs are intended for use in conjunction with our Concrete Filled Landings. The pans are built to be filled with concrete after they are installed, thus creating an attractive and long-wearing surface.

Concrete Filled Stairs & Landings | Pacific Stair Corporation

Our Stairpans are square. Stairpans are used in commercial steel stair construction to hold poured concrete for safe and durable walkways that provide strong support. With decades of experience manufacturing steel stairpans for the commercial building industry, you can trust that Eberl Stairpans are manufactured out of highest quality sheet and plate steel, and are formed with the tightest of tolerances, improving efficiency of installation for commercial steel stair fabricators.

Metal Stairpans for Commercial Buildings & Structures

A common economical stair design for

new construction is metal pan stairs with concrete infill. The metal framing is sheet steel with thin sections of concrete placed in the stair treads and landings for the walking surfaces. These thin sections of concrete (usually less than two inches thick) typically do not contain any steel reinforcement and are susceptible to cracking.(1)

We are a Nationwide manufacturer of standard and custom components for commercial stair systems, including, metal stairpans, perforated metal stairpans, stair treads, landing pans, carrier angles and more.

Stair Pan Risers and Stair Treads - Eberl Iron Works, Inc.

10 Feb 14 17:51. I am designing a stair for a fabricator. The intermediate landings are constructed of a 3" slab poured into 12 gage metal pans. The pans span 54" and are "U" shaped sections 18" wide with 1.5" upturned legs. I was assuming that the upturned legs would be fully braced by the slab and that I'd compute the flexural capacity of the pan alone (ignoring the strength of the concrete since there is no flexural reinforcing in the slab).

Adjustable screed for concrete steel pan stairs - YouTube

RediStair® is the concrete product that can bring the value of a concrete stair to a building owner at a cost competitive with steel stair systems. The advantages of concrete stairs over steel are many; they are more durable, quieter, and provide greater architectural appeal than steel or steel stringer with concrete tread systems. The trade-off has always been the cost to upgrade from steel to concrete. RediStair® may be the answer.
