Objective: Conditions relating to the ear, nose and throat are very frequent problems encountered by general pediatricians. Similarly, a major percentage of patients seen and operated on by the general

otolaryngologist are of the pediatric age group. It is my hypothesis that there is a deficiency of cross-training between these two specialties.

Deficiencies of cross-training between pediatrics and ...

Otolaryngology is the oldest medical specialty in the United States.

Otolaryngologists are physicians trained in the medical and surgical management and treatment of patients with diseases and disorders of the ear, nose, throat (ENT), and related structures of the head and neck. They are commonly referred to as ENT physicians.
