1 Environmental crime and corruption

Types of environmental criminal offences  
Environmental crime typically refers to any breach of a national or international environmental law or convention that exists to ensure the conservation and sustainability of the world's environment (Elliot, 2007).

### **Environmental crime and corruption**

Corruption changes the tradeoff in environmental policy. Corruption leads more polluting firms to enter into the market, which requires tighter environmental regulation. However, corruption also makes trading in some environmental protection for a marginally higher market entry optimal for the government.

Main agreed strategies include law enforcement, transparency mechanisms, accountable systems, civil society participation and freedom of press. But we must not forget to invest in the individual scale, empowering the

vulnerable, strengthening personal ethics and even challenging social behaviours that encourage corruption, such as our notions of success and thrive for immediate satisfaction .

### **How corruption is destroying our environment**

Corruption is a major challenge at a global, national and local level since it threatens development, peace and security, and undermines protection of the environment. Acceptance of corruption and corrupt practices undermines governments, the rule of law and our democratic system. No society, rich or poor, can afford such waste of resources.
