Re: Best resolution for

a 19" widescreen LCD
 monitor? Sorry, If you
 have a wide screen
 monitor, and you
 running a std
 resolution like
 1024x768 or
 1280x1024, then you'll
 definitely have a
 'people are too fat'
 problem. that's why
 there are the wide
 aspect resolutions (like
 1400x900). get a ruler,
 and do the math; you
 don't want to crunch
 up more pixels in less
 actual inches. but an
 older video card/driver
 won't have support for
 those 'non-std'
 resolutions, so update
 the drivers first.
