LG BD555 Blu-ray and DVD player: Amazon.co.uk: Electronics

Wealready had a LG tele, and connected up, and the blu-ray player set itself up, syncing with it. We have only used it to watch Blu-ray discs and DVD's to date, but the clarity on the former is fantastic, and on our DVD's have improved the picture quality to that of Sky HD. The machine is quiet in operation (bit of whirring etc on start up) and I am delighted with the purchase.
