Occupational Therapy For Children And

Occupational therapy (OT) helps people who struggle to do everyday tasks because of poor motor skills. For kids, that includes tasks that are part of learning and functioning well at school. OT works on the skills kids need to do the things they struggle with, from zipping their coat to writing and typing.

Occupational Therapy for Children - Understood

Occupational Therapy enables people to participate in daily life to improve their health and wellbeing. Daily life is made up of many activities (or occupations). Occupations for children and young people include self-care, being productive (attending nursery or school) and leisure. Occupational Therapists help babies, children and young people who may need support and advice if they are not able to do their occupations due to illness, disability or family circumstances.
