The Social Value Practice supports SME organisations of all sizes and types across the United Kingdom to understand and create social value for their stakeholders and the wider community. Via training, facilitated

workshops and consultancy support, our team help organisations to achieve their social value aims regardless of their size or the sector they are operating in.

Homepage - The Social Value Practice

The p-value is often misinterpreted as being the probability that there is no difference between the treatments being compared. It is not as simple as this, unfortunately. The p-value is a conditional probability, defined as the probability of observing a result as or more extreme purely by chance if there were in fact no difference between the treatments.

P-values | Health Knowledge

Reflective Practice is the foundation of professional development; it makes meaning from experience and transforms insights into practical strategies for personal growth and organisational impact.
